

THE WEATHER.

Showers today and probably Thursday.

VOL. XC—NO. 23.

ONLY EIGHT HUNDRED RESCUED FROM LINCOLN

A Total of 1,302 Passengers and Members of the Steamer's Crew Was Lost—John Jacob Astor, Archibald Butt and Other Notables Were Among Them

That the final roll of the rescued from the Titanic disaster had practically been made up, was the impression that grew almost into conviction last night as the hours wore on without the revision of lists adding measurably to the total of known survivors.

Of definite news of the disaster the night added little. Down the Atlantic coast, fog enveloped in many places, as the report showed, crept the Cunarder Carpathia bearing on her the 888 lives that had been snatched from the waters when the Titanic's 20 boats laden to their limit, one by one, made their way from the giant liner as it became known that she was soon to take her fatal plunge.

But although the rescue ship was reported within wireless range of the Sabie Island station at comparatively early hour and every wireless ear was waiting to catch the snap of a receiver which might mean that the great secret of the liner's death was about to be given up, midnight came and went and the night began to grow old—and still the word had not been spoken.

Carefully compiling the available lists, the record of the named survivors of the disaster stands significantly thus: Men, 79; women 233; children 16. Total 328.

Of the remaining 1,000 known survivors, it is estimated that not more than 100 were seamen required to man the boats. This would leave approximately 440, and in the original proportions of women and children in the steerage, where the passengers in the Titanic's case numbered 710, it seems probable that the greater part of these 440 were women and their little ones. Nothing could show more plainly the heroism of the crew and the men passengers who stood by the doomed ship, facing practically inevitable death, and sent the women and children away in the life boats. Some would have to be left; but the women, hundreds in fact, were left, but to all appearances the men who were left stayed behind deliberately, calmly, stepping aside to let the weaker ones, those to whom they owed protection, take their way to safety.

"Sinking by the head. Have cleared boats and filled them with women and children."

This was the final message these brave men sent the world, for it was directly afterward that their wireless signals sputtered and then stopped altogether.

The picture that inevitably presents itself in view of what is known is of men like John Jacob Astor, master of scores of millions; Benjamin Guggenheim, of the famous family of bankers; Isadore Straus, a merchant prince; William T. Stead, veteran journalist; Major Archibald Butt, a soldier; Washington Roebling, noted engineer—any or all of these men stepping aside and bravely, gallantly, remaining to die that the place he otherwise might have filled, could perhaps be taken by some sad-sought, shawl-enshrouded, illiterate and penniless peasant woman of Europe.

Of the survivors, what is known is a story of peril and suffering with the revelation that will furnish of just what happened on board the stricken ocean giant—pictures which will leave the imagination nothing to draw upon—still remains to be told. How quickly they will be able to tell it and clear up all the mysteries of identity which the limited carrying capacity of the Carpathia's wireless has left the world in doubt, seemed tonight to depend largely upon atmospheric conditions.

The weather was thick on the coast last night, not only interfering, it is believed, with wireless communication from the liner to Sabie Island, but probably with her rate of progress toward New York whither she is heading.

Meanwhile, other methods of communicating with her than by the land stations are being tried. From the Virginia capes the scout cruisers Salem and Chester, armed with powerful wireless apparatus, are speeding toward the Carpathia and before very many hours have elapsed, it is hoped they will be in close touch with her. All hope that some of the Titanic survivors might be on board either the steamer Parian or the Virginian had to be abandoned late yesterday, when it was definitely learned that neither steamer had picked up anyone from the big liner.

Search for bodies in the vicinity of the disaster, it was learned tonight, will be taken up by the White Star Line from Halifax, where the cable steamer Mackay-Bennett has been chartered to pry further orders, searching for bodies that may come to the surface. Up to 1:30 o'clock this morning so far as could be learned at any of the coast stations no syllable of tidings had come from the Carpathia since she was able by the aid of the Olympic's relay many hours before to send a waving ashore a list of the names of first and second cabin Titanic survivors which she had on board. It is thought—feared would be the better word, that this list is now practically complete. As for the rest, direct advices from Sabie Island reported remain until conditions were had for transmission and only faint communication was had with the ship, being within range of call. It was thought, too, that the wireless opera-

MAJOR ARCHIBALD BUTT

Military Aide to President, Who Was a Passenger on the Steamer Titanic.

tor on the Carpathia had become fatigued from his long siege at the key of the liner's wireless and that he was resting, preparing for the transmission when the ship comes into communication with stations on the American coast.

Whether Charles M. Hays, president of the Grand Trunk railway, was saved, was not known tonight. His name was not among those reported rescued by the Carpathia. A Canadian dispatch early in the day stated that Mr. Hays was saved. His wife and daughter were rescued.

The Treasury Department, through the customs office, has given orders to expedite the landing of the survivors of the Titanic and to aid them in every way possible upon the arrival of the Carpathia. Customs regulations have been suspended and the customs officers will aid the survivors in finding relatives and friends.

Vice President Franklin said late this afternoon that his list of survivors showed that 202 out of 325 first cabin passengers and 124 out of 285 second cabin passengers of the wrecked liner had been accounted for.

Charles P. Sumner, general agent of the Cunard Line, in this country, said tonight that he believed the Carpathia was within 60 or 70 miles of the Titanic when the big ship struck the iceberg.

Mr. Sumner, who had vainly tried to reach the Carpathia by wireless during the afternoon, said he had no way of telling just where the Carpathia was at this time, but thought she was steaming for New York. She might be within the New York wireless telegraph zone and able to send messages late tonight or tomorrow morning, he said, but agreed that he had merely advanced this as a supposition.

When asked regarding a rumor that the Carpathia might put into Boston and land her rescued passengers there, Mr. Sumner replied that there was nothing in the report. Had there been but a few of the rescued ones, this might have been done, he said, but it was his opinion that with more than 800 survivors on board, the captain of the Carpathia would make direct for this city.

It was estimated that both the scout cruiser Chester, and her sister ship, the Salem, which was understood to have started north about the time the Chester headed that way, would be in touch with the Boston wireless station before midnight. The cruisers are expected to communicate any information they may acquire to Washington.

Major Butt Among Lost.
Washington, April 17.—The flickering hope that Major Archibald Butt, well known throughout the country as President Taft's and former President Roosevelt's military aide, and Clarence Moore, the Washington capitalist and social leader, had been saved from the tragic wreck of the Titanic, fled from Washington today when the list of the rescued was made public. The names of neither Major Butt nor Mr. Moore appeared among those who have been saved.

As the result of a day of telegraphing and long distance telephoning, the White House admitted that there was little hope that Major Butt had been saved. It was believed that if there were any hope some message would have been received. With the knowledge that the White House would be waiting for a word from him, it is believed to be inconceivable that Major Butt should be on the Carpathia and yet remain silent. Major Butt at one time was the Washington correspondent for several Southern newspapers. He formerly lived in Augusta, Ga.

Senator Guggenheim, of Colorado, in telephone consultation with the White Star Line officials in New York today, was unable to learn the fate of his brother, Benjamin Guggenheim, reported on Page Eight.

(Continued on Page Eight)

DESIGN SELECTED LINCOLN MEMORIAL

Plans as Prepared by Henry Bacon, New York Architect, Accepted.

STRUCTURE OF SOLID MARBLE

Will Stand in Potomac Park—Congress Has Already Authorized Appropriation of Two Million Dollars.

Washington, April 16.—The Lincoln Memorial Commission, by a close vote today, decided to recommend to Congress the design for a memorial to Abraham Lincoln submitted by Henry Bacon, a New York architect.

Mr. Bacon's design, already approved by the Commission of Fine Arts, calls for a rectangular marble structure surrounded by Doric columns each 40 feet high, not unlike the treasury building here, except that there is to be only one story.

The statue of Lincoln, designs for which are yet to be submitted, will stand on a pedestal at one end of the structure. On one wall will be Lincoln's Gettysburg address, probably in bronze, and on the opposite wall his second inaugural address.

The memorial will stand in Potomac Park, south of the White House, on the same straight line as the capital and Washington monument. Congress already has authorized an appropriation of \$2,000,000 for it, but the money has not actually been appropriated.

FOR MORE COTTON STATISTICS.

Senate and House Pass Bills Demanding Further Data.

Washington, April 15.—Both houses of Congress passed bills today to the effect that the cotton statistical work of the government.

The Senate agreed to a bill to provide for the publication of the facts concerning the consumption of cotton contemporaneously with the publication of the ginners' report by the Census Bureau. The House passed a bill for the collection and publication by the Director of the Census of statistics of cotton production and consumption.

Representative Heflin, of Alabama, (Dem.), declared that the present statistics collected and disseminated by the government did not include the amount of stocks on hand and that the producer for that reason was unable to govern either his crop production or its disposal.

Representative Slayden, of Texas, (Dem.), argued against the measure on the ground that it caused needless expenditure of government money. He declared the figures were now carried by the Associated Press much more speedily and without cost to the government. Congressman Heflin agreed that certain figures were carried in that manner, but said the bill contemplated the collection and dissemination of more extended data.

STATE BANK EXAMINER.

S. A. Hubbard Selected to Succeed Mr. Brown—Assistant Named.

Raleigh, N. C., April 16.—The Corporation Commission today selected S. A. Hubbard as State bank examiner and L. E. Covington, of Raleigh, assistant. The appointments were made at noon, filling a vacancy caused by the resignation of Charles V. Brown, who becomes cashier of the Bank of Lumberton May 1. The new examiner was cashier of the Bank of Rockingham at Reidsville, when he was elected assistant examiner last September. His promotion attests the eminent satisfaction given the commission.

Mr. Covington, the new assistant, has been auditor for the Merchants' National bank, in this city, for two years, having come from Charlotte, where he was with the Merchants' & Farmers' Bank. He was in Charlotte five years and in Wilmington two years with the Southern National Bank before coming to Raleigh. He is a native of Laurinburg. Cashier W. B. Drake, Jr., of the Merchants' Bank, says of the election of Mr. Covington that he was never associated with a more thoroughly competent and dependable man in banking and that while he regrets exceedingly to lose him from the Merchants' Bank, the advancement afforded him is most eminently deserved.

WILL SPEAK AT SALISBURY.

Roosevelt Will Stop and Make Ten-Minute Talk There.

Washington, April 16.—Announcement was made here today that Col. Roosevelt, on his visit to North Carolina next Monday will make a 10-minute speech from his train at Salisbury, about noon. This, and the speech at Greensboro, are said by his managers to be the only addresses he will make in the State.

Augusta, Ga., April 16.—The annual convention of Georgia health officers meets here this afternoon. A large number of persons and sanitary officers from all over Georgia are attending. Tomorrow morning the annual session of the Georgia Medical Association begins and the sessions will continue through Friday. There will be 71 papers read and 400 physicians will be in attendance.

CHAS. M. HAYES, President of Grand Trunk Pacific Railroad, Who, With Wife and Daughter, Was Passenger on Ill-Fated Titanic.

GRAHAM ATTACKS COLLEAGUE

Illinois Representative Charges That Minority Leader Mann Knowingly Had Uttered Deliberate Falsehood.

Washington, April 16.—For the purpose of making the flat charge that Mr. Mann, the minority leader "knowingly" had uttered a deliberate falsehood in an effort to discredit it, Representative Graham, of Illinois, chairman of the House Interior Department Expenditures Committee, took the floor today and delivered a bitter assault on his colleague.

The attack grew out of Mr. Mann's allegations a few days ago that Chairman Graham had befriended and advised Mrs. Helen Pierce Gray, alleged by him to be a woman lobbyist active in Indian legislation.

An affidavit which Mr. Mann had said proved his allegations was read by Mr. Graham, who said it was neither proof nor even an affidavit as Mr. Mann had alleged.

Mr. Graham, shaking his clenched fist at Mr. Mann, declared he was justified in the belief that Mr. Mann "was trying to get these charges before the country when he had knowledge that they were absolutely false."

Mr. Graham charged that Mr. Mann virtually had falsified the records in the case. While Mr. Mann was pilloried, he sat grimly in his seat and declined to interrupt.

Representative Graham charged that Senator Gamble, of South Dakota, chairman of the Senate Committee on Indian Affairs, was at the bottom of a conspiracy to discredit the House Indian Committee, which he could not control and which he could not control.

Mr. Mann insisted that common decency demanded investigation of the whole thing. No action was taken.

OUTLINES

Damaging evidence against Mrs. Grace was given at her preliminary trial yesterday.

Theodore Roosevelt will make a short speech at Salisbury when he comes through the State next Monday.

The supporters of Oscar Underwood will be in complete control of the Alabama State Democratic Convention which meets today.

The Lincoln Memorial Commission yesterday decided to recommend to Congress the design submitted by Henry Bacon, a New York architect.

Congress passed a resolution yesterday to make an inquiry into the Titanic disaster and frame legislation to minimize the possibilities of another such tragedy.

Mr. Mann, the minority leader of the House, was yesterday charged by his colleague, Mr. Graham, of Illinois, with "knowingly" uttering a falsehood, in an effort to discredit the committee.

Senator Simmons, of North Carolina, was yesterday placed in charge of the metals schedule of the tariff bill by his colleagues on the Senate Finance Committee, instructing him to force the measure to a vote as soon as possible.

It was finally determined last night that all of the 1,302 passengers and crew who had been missing since the Titanic sank were lost, as all ships that were nearby at the time of the disaster have reported that they have no survivors aboard, with the exception of the Carpathia, which rescued 868.

Among the drowned are John J. Astor, Major Archibald Butt, Henry B. Harriss, C. H. Hayes, Corn. New York markets: Money on call easier, 2 1/2 to 3 1/4 per cent; ruling rate 3 1/4; closing bid —; offered at 2 1/2. Spot cotton closed steady, 15 points higher. Flour steady to firm. Wheat, spot irregular; No. 2 red, 1.11 1/4, elevator export basis to arrive 1.14 1/4. C. O. B. about 1.10. Corn, weak; export \$2 5/8 nominal C. O. B. lowest. Rosin and turpentine easy.

GOVERNOR WILSON LAUDS THE SOUTH

Delivers Address in Atlanta Before a Crowd of Nine Thousands.

TALKED LITTLE OF POLITICS

In First Important Address in This Part of South He Makes Fine Impression—Attacks Interests.

Atlanta, Ga., April 16.—Woodrow Wilson repeated his attack on Federal interests and their control of government, called for a return to Democracy in fact, as well as in name, and lauded the South's industrial and political rejuvenation in a speech before a great crowd here tonight. It was the first important address of his tour of this part of the South and was made before an assemblage of nearly 9,000 persons in the local auditorium.

In handling the subject of "big business" he reviewed his dealings with it in New Jersey since becoming Governor and condemned a social condition which would make directors of commercial enterprises the directors of political matters of both parties.

The remedy to correct this state of affairs, he asserted, is the taking over by the people as a whole of the reins of government, both local and National.

Publicity, the Governor stated, is the best weapon to fight evil conditions, as the public conscience, once aroused by an intimate knowledge of things, could be depended upon to do the rest.

Governor Wilson otherwise touched very little on present day political questions. He referred only once to tariff matters, advocating breaking down of what he termed "artificial walls."

He spoke strongly in favor of a mercantile marine. In reference to the Panama Canal, he called attention to the contemplated organization of steamship lines by the railroads and the stifling of competition and low carrying rates, which he said, shippers expected when the big ditch is opened.

He reviewed the apparent backwardness of the South since the war in assuming leadership in governmental affairs, and its looking to other sections for material in upbuilding its broken fortunes. That, he said, is all past and the Southern States are now taking their rightful places in the counsel of the republic and commerce.

While the South generally is looked upon as conservative in government affairs, and its looking to other sections for material in upbuilding its broken fortunes, that, he said, is all past and the Southern States are now taking their rightful places in the counsel of the republic and commerce.

A Democratic victory now, he asserted, in the most direct allusion in his speech to the present campaign, would bring into the service of the National government men from a section stimulated, but not corrupted by the present day conditions, commercially prosperous, but not in the hands of "special interests."

The Governor will spend the night with friends here and tomorrow visit Griffin, Barroville, Forsyth, Port Valley, Montevideo, Americus and Smithville, and winding up at Albany, where he will deliver an address at night before the Chautauqua assembly.

SENATOR SIMMONS SELECTED

Finance Committee Puts Him in Charge of Tariff Measure (Special Star Telegram.)

Washington, D. C., April 16.—At a meeting of the Democratic members of the Finance Committee today it was unanimously agreed that Senator Simmons should take charge of the management on the floor of the Senate of the tariff measure, providing for a revision of duties on steel and iron and other metallic substances.

Senator Simmons gave notice in the Senate yesterday that on Thursday or Friday of this week he would move to make this bill the unfinished business and would insist upon speedy action on it.

At the meeting of the Finance Committee tomorrow Senator Simmons will insist upon immediate action by the committee upon critical schedule and also that the hearings on the sugar schedule be terminated during this week.

Washington, April 16.—Democratic members of the Finance Committee today placed Senator Simmons, of North Carolina, in charge of the metal schedule bill and instructed him to force the measure to a vote as soon as possible.

It was finally determined last night that all of the 1,302 passengers and crew who had been missing since the Titanic sank were lost, as all ships that were nearby at the time of the disaster have reported that they have no survivors aboard, with the exception of the Carpathia, which rescued 868.

Among the drowned are John J. Astor, Major Archibald Butt, Henry B. Harriss, C. H. Hayes, Corn. New York markets: Money on call easier, 2 1/2 to 3 1/4 per cent; ruling rate 3 1/4; closing bid —; offered at 2 1/2. Spot cotton closed steady, 15 points higher. Flour steady to firm. Wheat, spot irregular; No. 2 red, 1.11 1/4, elevator export basis to arrive 1.14 1/4. C. O. B. about 1.10. Corn, weak; export \$2 5/8 nominal C. O. B. lowest. Rosin and turpentine easy.

Macoon, Ga., April 16.—Judge Thomas G. Lawson died at Eatonton, Ga., at 4 o'clock this morning.

COL. JOHN JACOB ASTOR, One of the Notables, Victim of the Great Marine Disaster.

CONGRESS TO MAKE INQUIRY

House Prepares to Make Investigation of Titanic Disaster and Minimize Possibilities of Other Tragedies.

Washington, April 16.—Stirred by the horror of the Titanic disaster, all official Washington today was preparing for steps to minimize the possibilities of another such tragedy.

Congress began framing legislation to govern life saving appliances and wireless and President Taft, doubly touched by the probable loss of his friend and military aide, Major Archibald W. Butt, held conferences with cabinet officers, to consider government control over the operation of wireless.

The House today unanimously adopted a resolution of condolence to the relatives of those who lost their lives on the Titanic. A resolution which was offered by Representative Austin, of Tennessee, (Republican) follows:

"Resolved, That this House has heard with profound regret and sorrow of the appalling loss of life on the steamship Titanic and expresses its deep sympathy with the relatives of those who perished in that great disaster."

A searching investigation by the House into the sinking of the Titanic was provided in a resolution offered by Representative Mott, of New York, (Republican), with a view to the enactment of legislation providing for proper safeguards for human life on board all vessels arriving at or leaving United States ports.

The inquiry will be made by the Merchant Marine and Fisheries Committee, which will be endowed with all the powers of a high court.

Representative Alexander, of Missouri, chairman of the committee, declared this catastrophe should stop the building of such enormous vessels, for which there was no commercial need. This could be accomplished, he said, by legislation to limit the size of ocean-going vessels admitted to American ports.

"This committee will soon report a bill to regulate radio-communication," said Mr. Alexander.

"There should be an international agreement for protection of sea traffic, regulation of the size of ships and designation of what routes vessels should travel at different seasons, if the Titanic had taken a longer southern route the disaster would not have occurred."

The necessity of some sort of government control over the operation of radio-telegraphy was forcibly brought home to government officials by the Titanic disaster.

President Taft was in conference at the White House today for nearly two hours with some of his cabinet officers, whose functions cover the operations of this new system of telegraphy. These were Secretaries Stimson, Meyer and Nagel, Attorney General Wickersham and Mr. Sheffield representing the Marconi company, were also consulted, while the technical side of the question was developed by Admiral Coney, the engineer in chief of the navy, which bureau is charged with the management of the naval wireless system.

The discussion was general in character and touched particularly upon the details of a new bill, which has been prepared in the Navy Department to give effect to the requirements of the general wireless telegraphic convention to which America has recently adhered.

Lord Bournemouth cabled to President Taft today expressing sympathy of the proprietors of the London Daily Telegraph for the "terrible loss of so many prominent and distinguished citizens and the appalling catastrophe which has befallen the Titanic."

By direction of the President, Acting Secretary Huntington Wilson, of the State Department, sent a message in reply extending mutual sympathy.

MODERN IDEA.

To keep the money stirring you've got to keep your Advertising Going.

FLOOD SITUATION IS SOME BETTER

The Conditions South of Vicksburg have Materially Improved

MUCH WORSE IN LOUISIANA

A Dozen Parishes Are Under Water And Aid is Badly Needed—Three Hundred People Rescued

Although the general flood situation along the Mississippi river south of Vicksburg has materially improved, conditions today in the vast territory of Northern Louisiana, where a dozen or more parishes are partly under from five to 10 feet of water, were steadily growing worse. The Salem crevasse near Abbeville, La., continues to empty its 18-foot wall of muddy waters over some of the finest grazing and farming lands of the upper State.

A large force of men was rushed to Kemp Bend, 35 miles north of Natchez yesterday where 100 feet of the west bank levee began to slough off. Reports from there state that the levee will be saved.

At Tallulah, where much suffering has been experienced since Sunday, the flood has spread to practically all parts of the town, and is rising rapidly this morning. All rail communication has been suspended. Provisions are about exhausted and unless aid is received immediately there will be untold suffering among the negroes, who, as a rule, are in destitute circumstances.

Three hundred people were rescued yesterday at Sandheim and brought to the levees to await boats to take them to the emergency camps along the river.

According to a forecast issued yesterday by the Weather Bureau there will be a slight fall in the river at Natchez within the next few days.

The Cloudburst.
Tallulah, La., April 16.—Heavy rains, almost of cloudburst proportions which have fallen here during the past two days, have intensified the already terrible condition of the flood sufferers, many of whom have been without shelter, and in some instances, without food since the waters from the Salem levee break invaded this territory. Freight cars, attics, upper stories, lodge rooms, the court house, high school building and even the jail are being occupied by the unfortunate, who have been driven from their homes.

The fight of the citizens of Tallulah to keep the floods from the southern part of the town has been lost. The temporary levee thrown up along the embankments of the Vicksburg, Shreveport & Pacific and the Iron Mountain Railroad was overtopped early today, flooding that portion of the town which has heretofore remained dry. The water is three feet deep there and rising rapidly.

The town was in total darkness last night, owing to the flooding of the electric light plant.

More than 2,000 negroes who were on the levees for a distance of 20 miles south of the Salem crevasse, many of them without food for more than 24 hours, were rescued yesterday, boats being sent out from Vicksburg.

Three hundred persons are still marooned at Sandheim. Boats are being assembled today and they will be taken to the levees and from there transferred to places of safety.

All of the negroes, who as a rule never worry about tomorrow, and because of the hard winter just experienced, are in destitute circumstances. Unless aid is received for immediately, there will be untold suffering.

Washington, April 16.—The President today signed the bill appropriating an additional \$300,000 for the protection of levees on the Mississippi river and tributaries.

MRS. GRACE BOUND OVER.

Cook Gives Damaging Evidence Against Her.

Atlanta, Ga., April 16.—At her preliminary hearing late today, Mrs. Daisy Ople Grace was bound over to the grand jury on a charge of shooting her husband, Eugene H. Grace, with intent to murder. Her bond of \$7,500 was continued.

The hearing had been set for earlier in the day, but was re-set to escape a large crowd which filled the court room.

What appeared to be most damaging testimony to the defendant was given by the negro cook at the Grace home. She declared that on the day of the shooting while Grace lay groaning in his bed his wife smiled and told her he "was not sick, only sleepy." According to this witness Mrs. Grace instructed her to inform the doctor that his services were not needed if he should call.

Two physicians testified that Grace could not recover. Several police officials and Grace's mother were introduced as witnesses.

Mrs. Grace's bond was fixed at \$7,500, the same amount as that on which she was released a few weeks ago. This bond, however, must be again approved by the court and Mrs. Grace was escorted to jail pending the approval of her bond.

SPORTING EVENTS

NATIONAL LEAGUE.

Results Yesterday.
At Boston, 2; New York, 8.
At Cincinnati, 2; Pittsburgh, 8.
At Brooklyn, 2; Philadelphia, 4.
At St. Louis, 20; Chicago, 5 (8 innings).

Philadelphia	3	2	.600
Brooklyn	2	3	.400
New York	2	3	.400
Pittsburgh	1	3	.250
Chicago	1	4	.200

Cincinnati, April 16.—O'Toole was in fine form today and allowed Cincinnati only five hits, Pittsburgh winning 8 to 2. While wild, O'Toole was effective with men on bases. Smith was hit opportunely. Wagner's batting and fielding featured.

Pittsburgh 021 001 310—8 10 1
Cincinnati 000 100 010—2 5 3
O'Toole and Gibson; Smith and McLean. Time 2:00. Umpires Brennan and Owens.

Boston, April 16.—The Giants returned to form today and bunched hits with Boston's misplays, piled up seven runs in two innings, and defeated Boston 8 to 2. Boston's runs were scored on a pass, an outfield muff by Snodgrass and Wilson's miff of a pop fly.

Boston 000 002 000—2 6 3
New York 010 034 000—8 12 2
Tyler, Dickson and Kling; Riden, Marquard and Myers, Wilson. Time 1:52. Umpires Klem and Bush.

St. Louis, April 16.—Errors and inability to hit at the right time brought defeat to Chicago today and was emphasized by heavy hitting on the part of St. Louis, giving the home team the game 20 to 5.

St. Louis 102 100 250—20 16 0
Chicago 010 000 130—5 10 8
Steele, Willis and Bliss; Wingo, Cole, Pearce and Archer, Cotter. Time 2:00. Umpires Johnston and Eason.

Brooklyn, April 16.—Philadelphia made it two straight over Brooklyn today. Brennan pitched excellent ball for the visitors and was given splendid support. The pitcher was a prime factor in his team's victory, driving in the winning run with a long triple in the seventh.

Philadelphia 010 000 300—4 7 1
Brooklyn 020 000 000—2 8 0
Brennan and Doolin; Knetzer, Schardt and Phelps. Time 1:40. Umpires Rieker and Finner.

PREPS DEFEAT COLLEGIANS.

Trinity Park High School Covers Itself With Glory.
(Special Star Telegram.)
Durham, N. C., April 16.—For the first time in the history of the two institutions, Trinity's little brother, Trinity Park School, defeated her this afternoon by the close score of two to one. The preps simply took the game fairly and squarely, that's all there is to it. The cause of the defeat of the collegians was their overconfidence. The preps played an errorless game, while the collegians made four errors. Score:
Trinity 000 010 000—1 5 4
T. P. S. 020 000 000—2 5 0
Batteries: Ivey and A. Thompson; Fitzgerald and Lowe; three-base hits, J. Thompson.

OAK RIDGE WINS.

Defeats Lenoir College in Very Close Game.
(Special Star Telegram.)
Oak Ridge, N. C., April 16.—Oak Ridge defeated Lenoir College here today by a score of 2 to 1. The features of the game were the batting and fielding of Britain for Oak Ridge.

Batteries: Oak Ridge, Winston and Holt; Lenoir, Poole and Lowe. Score:
Oak Ridge 2 5 2
Lenoir College 1 4 4

CAROLINA TAKES SERIES.

Wins Third Game From Virginia Four to Nothing.
Charlotte, N. C., April 16.—On a field of ash, Carolina triumphed over Virginia 4 to 0 here today. Lee out-did Rixey in the box, the latter losing in the fourth, when Carolina made four singles. Feature plays were made by Irbey in left and Winstead at short for Carolina, and Lille in center for Virginia.

STEAMER HITS THE UTAH.

Battleship Is Uninjured, but Liner's Bows Are Smashed.
New York, April 16.—The Grace Line steamer Condor, outbound for Callao, while proceeding down the bay late this afternoon in a dense fog, came into collision with the United States battleship Utah, and her bows were stove in. The battleship was lying at anchor off Tompkinsville, and the Condor, moving slowly, pushed her nose through a fog bank and bumped head-on into the port bow of the seafighter. The Utah received only slight injuries.

The Condor immediately after the crash backed away and came to anchor. Her bows are stove from the stem to the hawse pipe, and she is said to be leaking in her fore peak.

JOHNNY JONES' SHOWS HERE.

The well-known Johnny Jones Exposition Shows opened a week's stay here Monday night at the show grounds at Fourth and Castle streets, and the carnival grounds were visited by a large crowd. The shows are said to be good, and the animal show especially is a leading feature. Performances will be given each afternoon and evening, and doubtless many fun-seekers will visit the different attractions and take part in the general merry-making on the grounds each night.

Detroit	2	3	.400
Washington	2	2	.500
St. Louis	2	4	.333
New York	0	5	.000

Philadelphia, April 16.—Boston won today's game by hitting the deliveries of Krause and Denforth hard. Krause lasted only one inning. The game was featured by five double plays, two of which were started on line drives to Gardner; by Woods striking out 11 batsmen, thus equalling the season's record, and by the batting of Hooper, McNichols and Wood.

Boston 430 020 000—9 14 1
Philadelphia 220 020 328—11 12 5
Wood and Nunez; Krause, Danforth and Lapp, Egan. Time 2:10. Umpires Westervelt and O'Loughlin.
Chicago, April 16.—Chicago was out-hit and outplayed today and Detroit won the second game of the series, 10 to 1. The locals erred frequently, while Willett pitched almost invincible ball. A triple play was made by O'Leary, Bush and Gainer, the first of the season.

Chicago 000 000 001—1 4 4
Detroit 000 130 123—10 16 1
Peters, Delhi and Block; Willett and Stange. Time 1:50. Umpires Egan and Evans.

Cleveland, April 16.—Cleveland won an up-hill game today 9 to 8. Pitchers Baskette and Frill, who started the game, failed to last until the first inning was ended, two doubles, a single and a triple being made off Baskette and four singles off Frill.

Cleveland 300 100 302—9 12 1
St. Louis 401 102 000—8 13 1
Baskette, James, Blanding and O'Neill; Frill, Brown and Stephens. Time 2:20. Umpires Dineen and Perrine.

New York, April 16.—The Highlanders put up a poor exhibition here today, piling up eight errors, and the Washingtons won their second victory over the locals almost at will. Groom was hit fairly hard, but tightened in the pinches. In the fourth Manager Wolverton went to bat for Warhop with the bases filled and struck out for the third out. In the seventh, with one out, Wolter singled and Chase doubled, but Groom showed his ability by striking out Hartnell and Daniels.

Washington 203 120 020—10 11 1
New York 002 010 000—3 9 8
Groom and Henry; Ford, Warhop, McConnell and Williams. Street. Time 2:09. Umpires Connolly and Hart.

RUSH TO REINSURE.

Premium at Lloyds Rises to 60 Guineas Per Cent on Titanic

London, April 15.—Exciting scenes were witnessed at Lloyd's underwriting rooms yesterday. Insurance losses in the last six months have been unparalleled in the history of Lloyd's in liners of the biggest class.

Since the Olympic collision both the Delta and Oceana have been wrecked, and now comes the disaster to the Titanic. When business opened there was a rush to reinsure. Fifty guineas per cent was charged, and this rapidly rose to 60, but later dropped to 25 on the report that the Titanic was being towed to Halifax.

The Titanic cost \$10,000,000 to build. She was insured at Lloyd's for \$5,000,000, and it was said that she carried among other valuables, a consignment of diamonds worth something like \$5,000,000. She carried no specie.

The International Mercantile Marine in addition to policies outside, also insures its own vessels. At the time the Republic was sunk the surplus in the company's insurance fund was entirely wiped out, a deficit being created. A surplus has since been restored, but, according to the last published annual report of the company, there was a balance of only \$573,000 in the insurance fund.

O'MALLEY CASE RETARDED.

Juror Sick and Judge to Form Grand Inquest Today.

Annapolis, Md., April 16.—The absence of one of the panel of jurors at the opening of the Anne Arundel Circuit Court today prevented the assembling of the grand jury which is to investigate the charge of attempted bribery in the case of John P. O'Malley, State Auditor-elect, who is alleged, offered Legislator William R. Smallwood, of Prince George's, \$2,500 to vote against the local option bill.

Henry Baldwin, of the Third district, is the absent juror. At nearly noon word reached the court house by telephone that Mr. Baldwin had been confined to his residence since Saturday by sickness, but expected to be in Annapolis tomorrow morning. Judge Breshers announced that it would be impossible to select the grand jury today, and excused the rest of the jurors until tomorrow morning at 9:30 o'clock.

The investigation of the O'Malley case may not get under way before Wednesday, but it will be expedited. All of the witnesses, about 20, are under bail to appear in Annapolis tomorrow. O'Malley was released under \$10,000 security, furnished by four well known politicians of Anne Arundel county.

—William Thomas, colored, was arrested last night by Plainclothes Officer B. W. Jacobs, on a warrant charging him with an assault with a deadly weapon. It is alleged that he stopped three negro girls on the streets near the carnival grounds last night and when they refused to have anything to do with him, that he fired a pistol at them.

New Orleans, April 16.—Steamship companies of a number of Atlantic and Gulf ports were represented at a conference which is being held here for the purpose of discussing the question of "country damage" to cotton, or cotton that is alleged to be damaged before it reaches shipboard.

REPORT OF PUBLIC LIBRARY

For the Year Ending April 1st Submitted to City Council Yesterday Afternoon—Library Grows in Popular Favor.

The report of the Wilmington Public Library for the year ending April 1st was submitted to Council in regular session yesterday afternoon. It gives one an idea of the work of the institution during the year and shows that the library is visited by a large number of people every day. The report in full follows:

"To the Honorable the Mayor and Council of the City of Wilmington, North Carolina.
I respectfully submit the report of the Board of Trustees of the Wilmington Public Library for the year ending April 1st, 1912.

In compliance with Chapter 138 of the Private Laws of 1907, the Board of Aldermen, at the regular meeting in April, 1909, elected the following named persons to serve as Trustees of the Public Library for the term of two years, to-wit: Messrs. A. J. Howell, Miss Margaret L. Gibson, R. W. Price, S. M. Boatwright, and E. S. Martin, who accepted and on April 6th, 1909, organized the Board of Trustees and entered upon the discharge of the duties of said office.

"Mr. R. W. Price died on November 15th, 1909, and Mr. H. G. Ford was elected as Trustee to fill the vacancy and accepted the office.
"In compliance with Chapter 75 of the Private Laws of 1911, the City Council, at its meeting in May, 1911, elected the following named persons to serve as Trustees, to-wit: Miss Margaret L. Gibson, S. M. Boatwright and E. S. Martin, who accepted, and on May 16th, 1911, organized the Board of Trustees and entered upon the discharge of the duties of said office. Mr. E. S. Martin was elected chairman, and Miss Gibson, vice chairman.

"The total number of books in the Public Library April 1st, 1911, 6,468; number of books added since by purchase, or otherwise, 453. Total number April 1st, 1912, 6,921.
"Magazines on file regularly subscribed for April 1st, 1912, 44. Total number of books circulated and registrations from April 1st, 1911 to April 1st, 1912, are as follows, to-wit: Books circulated, 22,251; registrations, 368; daily average visitors 200; daily average borrowers, 135.

"The books and furniture are insured for \$5,000 in the name of the city of Wilmington.
"The balance of the appropriation made in June, 1910 on hand April 1st, 1911, amounting to the sum of \$435.54, has been expended as follows: Salaries, \$180; lights, \$5.53; books, \$20.00; balance not drawn, \$230.00; total \$435.54.

"And of said balance, of \$231.01 and the appropriation \$1,700 made in June 1911, had been expended up to April 1st, 1912, as follows:
"Salaries, \$922.50; lights, \$21.84; books and papers, \$676.64; furniture and repairs, \$31.85; total, \$1,672.83, leaving a balance of \$257.18 to be expended for the purposes of the library to the 1st of June, 1912.
"Fines collected from April 1st, 1911,

to April 1st, 1912, \$210.55; balance from March, 1911, \$8.92; total, \$219.47. Expended from said fines for books, periodicals, labor, and other incidentals, \$211.19; cash on hand, \$8.28.
"Respectfully,
"E. S. MARTIN,
"Chairman of the Board of Trustees, Wilmington Public Library."

DUNN HAS ROMANCE

Pretty School Teacher Leaves—Fayetteville Presbytery—Personals (Special Star Correspondence.)

Dunn, N. C., April 16.—In the Spring a young man's fancy lightly turns to thoughts of love," does not always apply to the boys, for Dan Cupid came pretty near disrupting the city graded school, or one grade anyway, when Miss Rosa Thomas, teacher of that grade, wired her landlady last Sunday night that she was married and would not be on duty next morning. It seems from what her friends can learn that she was married last August to Mr. R. H. Claytor, who is also a teacher, and has kept the matter a secret even from her own sister who is also teaching here, and staying in the same room with her. It is supposed by the bachelors of the town that those unusually pretty balmy Spring days were entirely too much for Miss Thomas, and that she could not even wait until the end of the term, which is only about one month off.

Fayetteville Presbytery will convene here tomorrow. Quite a number of the delegates came in today at noon, and many others will come tonight and tomorrow.

Presbytery will hold its sessions in the new Presbyterian church which was dedicated on last Sunday. Dr. W. W. Moore, D. D., L. L. D., of Richmond, preaching the dedication sermon. This service was to have taken place two weeks ago, but Dr. Moore could not come on account of a death in his family.

Mr. E. P. Davis, of Duke, was in town Sunday night on route to Belhaven to attend the Sharp-Louis nuptials which will take place tomorrow night. Mr. Davis will act as best man.

Miss Slocumb Smith, of Duke, has been secured to fill the vacancy caused by the marriage of Miss Rosa Thomas.

ATTACKS COMPENSATION BILL

Hoke Smith Declares Benefits To Workmen Much Too Small
Washington, April 16.—The first of many threatened attacks in the Senate on the Workmen's Compensation bill was made today by Senator Hoke Smith, of Georgia, who complained that the compensation which the bill would allow to railroad employees for injuries was entirely too small.

He also attacked the measure on the ground that it confined legal proceedings to the Federal courts and made exclusive the remedies which the bill promised.
"I am utterly opposed to a bill which turns over to the tender mercies of an appointee of the Federal courts the case of a poor man who has been so unfortunate as to become the victim of a railroad accident," Senator Smith said.

He declared he would insist on the right to action in the State courts and the retention of remedies provided by existing law.

A Smart Coat is a Good Letter of Introduction

—Dutch Proverb

Similar proverbs are found in the languages of all civilized nations—bespeaking the world's estimate of a man's success, refinement and taste by the clothes he wears.

You can't afford to be indifferently dressed.

Especially when you can have distinctive clothes made to your order by America's best designers and cutters—and still save money on them, no matter what price you care to pay, from \$16.50 to \$35.00.

Crown Clothes

embody all that is best in tailored-to-order clothes—perfect fit, up-to-the-hour style, faultless tailoring and all-wool fabrics, picked from the best productions of American and foreign woolen mills.

Such clothes distinguish their wearers from the crowd, help to make them leaders in pleasure or in business.

Drop us a card if you don't know who takes orders for these superb clothes in your locality. We'll tell you by return mail. Then you can see the beautiful fabrics, be properly measured and have your suit in a few days.

Crown Tailoring Company
809-11 Chestnut St., Philadelphia

Go-operating for Your Profit

Once there was a Danish manufacturer of green soft soap who couldn't keep his soap from freezing. And there was a Russian manufacturer of green soft soap who couldn't keep his soap green. They told each other their laboratory secrets, and all of Northern Europe now uses their green soft soap.

United States Tires

are made with all the secrets of manufacture, all the elements of strength that four great tire manufacturers know. It is inconceivable that they should not be better tires than those made by each manufacturer before he possessed all the tire knowledge, all the tire skill of the three others.

All Styles of Fastenings and Treads.

DAY'S DOINGS IN RALEIGH

Lieutenant Governor Newland May Be Candidate for Secretary of State—Typhoid Vaccine for State Troops.

(Special Star Correspondence.)
Raleigh, N. C., April 16.—Lieutenant Governor W. C. Newland, here today for the session of the State Textbook Commission to adopt histories to be used in the public schools of the State for the next five years, declined to express himself one way or the other as to the rumor current in the State that he would run for the office of Secretary of State against Col. J. Bryan Grimes.

He called at the office this morning and jokingly remarked that he was just looking around to see what changes he would like to make in the arrangement. Col. Grimes was in the office when he called. Gov. Newland declined to speak seriously regarding the report that he would be in the race for Secretary of State after having withdrawn from the contest for the nomination for Governor in favor of Hon. Locke Craig. He made the general impression here, however, that he really does not intend to try for Secretary of State. He has never made any public statement that he would oppose Col. Grimes' re-nomination.

At headquarters of the North Carolina National Guard here there has just been received a consignment of 1,000 typhoid vaccine points for vaccinating members of the guard this summer. There were 1,000 points received last summer and used with most satisfactory results. The new consignment of points will be distributed as indications come in from the companies in various quarters of the State as to the number of men who will likely be willing to take the treatment. There are about 3,000 men in the Guard and there comes into the Guard each year about 33 1/3 per cent. of new men.

New enterprises chartered today are: Southside Manufacturing Co., of Newbern, capital \$10,000 by Sallie D. Routh and others; The Rose Opera Co., of High Point, capital \$50,000 by C. P. McIntyre, High Point; A. F. Sams, Winston-Salem; and others. The Clement Land Co., Durham, amends its charter to reduce capital from \$8,700 to \$3,000. O. B. Barnes is president.

QUESTION OF ECONOMICS.

Future Food Supply of World to be Solved by Science.

(By E. McNair Carr.)
The problem to produce food for the fast growing population of the world is one of very great magnitude. All our food crops require in a more or less degree three elements to be in the soil where they are grown. These are phosphoric acid, potash and nitrogen. Nature has bountifully provided for the first two of these requirements in her phosphate rocks and in the salts of old, dried-up lakes in the form of precipitates. But nature has not been so bountiful in her stores of available nitrate of soda, and the supply will soon be exhausted.

Our atmosphere is about 50 miles deep, enveloping the earth, and it is largely composed of two gases, viz: four-fifths nitrogen and one-fifth oxygen. Certain leguminous crops can be planted whose root cells act as a storage battery to make available the nitrogen of the air in an available form of nitrates for the growth of plants in the future.

In addition to this method of obtaining nitrates as provided by nature, science has recently come to the aid of agriculture and offers another solution. If this process proves a success, there is no reason why the world cannot be made a veritable garden spot as the nitrogen of the air—even but a small per cent. of it—is in such an inexhaustible abundance as to make fertile every acre on the surface of the earth, and the world be made to sustain a population one-hundred fold what it does now. The cultivation of poor soils would be a thing relegated to the antiquity of the past.

Science has demonstrated that if a current of air be forced through an electric arc at high temperature the oxygen and carbon dioxide will be consumed, and the nitrogen precipitated in the form of nitrous oxide or nitric acid, which will readily combine with limestone rock or marl, the resultant compound being nitrate of lime, which is highly valuable as one of the three plant requirements, all now worth \$50 per ton.

The force of necessity will soon cause man to perfect and to make practical the electrical method of obtaining nitrates. The economy sought in its manufacture would best be served at the points of contact of the limestone rock and electric currents produced by large waterfalls. Piedmont North Carolina is rapidly coming into her own developing large electric power plants at the water falls, while the East has the limestone rock or marl in large quantities. Then let these two sections of our State unite their natural resources by conveying the power from the falls to the marl beds in the eastern part of the State, and thus be the first to show to the world the salvation of her future food supplies.

The opportunity is ours, the harvest is great. We will be the world's benefactors by perfecting the plan science offers to reduce the high cost of living and to relegate to the antiquity of the past the remotest possibility of another famine?

MANY MIGRATORY LABORERS

Mullenbach Looks to Government to Solve Problem.

Chicago, April 16.—James Mullenbach, former head of the Municipal Lodging House and now superintendent of the United Charities of Chicago, told the members of the Women's Trade Union League last night that the question of unemployment would eventually have to be solved by the Federal government.

"After careful study of the class and character of the patrons of the municipal lodging houses," he said, "I found that less than 1 per cent are vagrants. The great majority are migratory laborers."

The speaker deplored the fact that there is no scientific information in this country regarding the definite volume and nature of unemployment.

IN "LITTLE WASHINGTON"

Arrangements for Memorial Day—District Court—Rifle Team (Special Star Correspondence.)
Washington, N. C., April 16.—The Daughters of the Confederacy in conjunction with a large number of citizens are making elaborate preparations for the observance of Memorial Day, May 10th. Various committees appointed by the Daughters are at work and a very interesting programme of exercises is being arranged. The exercises as is the usual custom will be held in the public school auditorium after which will come the march to the cemetery and the decorating of the graves, then the return to the city and the picnic dinner to the ex-Confederate soldiers given by the ladies. Mr. R. D. W. Connor, of Raleigh, president of the Literary and Historical Association, will be the orator of the day.

The United States District Court of North Carolina will convene in the Court House of this city tomorrow morning. His Honor Judge H. G. Connor, of Wilson, will preside and District Attorney A. F. Sewell, of Charlotte, together with Assistant District Attorney Isaac Meekins, of Elizabeth City, will represent the government.

The rifle team of Company G, this city, are in Goldsboro, where on Tuesday and Wednesday of this week, they will participate in the Regimental Rifle Meet of the Second North Carolina Regiment. Quite a number of handsome prizes have been offered by the business men of Goldsboro to the lucky contestants.

COME TO CLOSE TONIGHT.

Rev. L. R. Pruett to Preach Concluding Sermon at Southside Church. A very successful series of meetings at Southside Baptist church will come to a close tonight at 8 o'clock, when Rev. L. R. Pruett, of Charlotte, who has been conducting the services, will preach the concluding sermon. A special invitation is extended the public to be present at the concluding meeting.

Two excellent services were held yesterday, one at 3:30 in the afternoon and the other last night at 8. A fairly large audience was present at the afternoon service and a very large one at night. Mr. Pruett preached excellent sermons and his remarks were received with much interest.

BIG IMPROVEMENTS.

Dan River Mills Will Build Million Dollar Addition.

Danville, Va., April 16.—The Dan River and Riverside Cotton Mills, incorporated, have ordered plans prepared for a million and a half dollars addition to the present seven million dollar investment in this group of textile plants. The new mill is to be a part of the Dan river group at Schoolfield, a Danville suburb. Work will be begun about May 1st, to be completed in a year. The new mill manufactures the finer grades of goods demanded by the trade. The opportunity to purchase machinery equipment advantageously expedited the determination to build.

May be Arbitrated Yet.
Iredell Meares, Esq., local attorney for the bondholders of the Wilmington Sewerage Company, has received a telegram from the bondholders' committee in Philadelphia which leads him to believe that there is every prospect of the company's accepting the latest proposition of the city that the much discussed controversy over the sewerage plant be settled by arbitration.

The message stated that a meeting would be held yesterday afternoon to consider the proposition and that some action would be taken. Mr. Meares believes that the bondholders will accept the city's proposition, subject to several changes and modifications. In the event that the bondholders decide to accept the arbitration proposal it is probable that a representative of the company will be sent here to make the arrangements.

School Closing Exercises.
The closing exercises of Wrightsville School, district No. 5, will be held Friday evening of this week, and a pleasing programme has been arranged for the event. The school is one of the largest rural schools of the county and is in charge of Miss Ella Jones. It is expected that the closing exercises will be largely attended. This is the first closing exercise in the county schools, but the others will follow rapidly and in less than a week all of the rural schools will have terminated their work for the present year.

UNDERWOOD IN CONTROL

His Forces Will Have Charge of Alabama Convention
Montgomery, Ala., April 16.—The Underwood forces appear to be in complete control of the Democratic State Convention which meets here tomorrow which is to select 12 delegates and 6 delegates at large to the National convention. Indications are that they will try to block any efforts to name a second choice.

Political prophets here say it is not at all unlikely that Governor Woodrow Wilson will have several friends on the delegation sent to Baltimore, but that even these will stand for Underwood to the finish as long as Alabama's "favorite son" appears to have a chance to receive the nomination. The State Executive Committee met today, canvassed the returns from the recent State primary and decided several local contests. The convention will be called to order at noon tomorrow. Representative Henry D. Clayton will be temporary chairman and H. S. D. Mallory, of Selma, will be the permanent chairman.

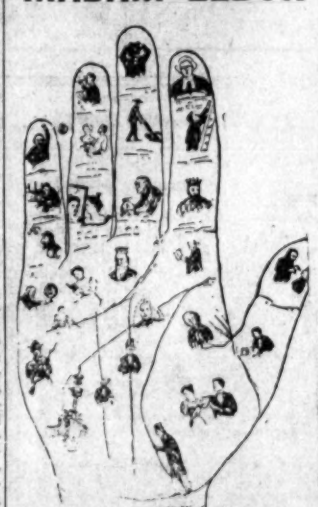

If Your Head Aches You Can't Think Fast

A Permanent Cure For Chronic Constipation

Although those may dispute it who have not tried it, yet thousands of others, who speak from personal experience, assert that there is a permanent cure for chronic constipation. Some testify they were cured for as little as fifty cents, years ago, and that the trouble never came back on them, while others admit they took several bottles before a steady cure was brought about.

The remedy referred to is Dr. Caldwell's Syrup Pepsin. It has been on the market for over a quarter of a century and has been popularized on its merits, by one person telling another. The fact that its strongest supporters are women and elderly people—the ones most persistently constipated—makes it certain that the claims regarding it as a permanent cure for constipation have not been exaggerated.

It is not violent like cathartic pills, salts or waters, but operates gently,

without griping and without shock to the system. It contains tonic properties that strengthen the stomach and bowel muscles so that in time medicines of all kinds can be dispensed with and nature is again solely relied on. Among the legions who testify to these facts are Mr. E. Garraux, 337 Ga. Ave., Atlanta, Ga., and Mrs. Lulu Osborne, Secaucus, N. J., and they always have a bottle of it in the house, for it is a reliable laxative for all the family from infancy to old age.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

THE MORNING STAR

Published by the
WILMINGTON STAR COMPANY, INC.,
Wilmington, N. C.

Entered as second-class matter at the
postoffice at Wilmington, N. C., under Act
of Congress, March 2nd, 1879.

FULL ASSOCIATED PRESS REPORT.
PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily
newspaper in North Carolina, is published
daily except Monday, at 4¢ per copy, \$3 for
six months, \$1.50 for three months, 50
cents for one month, served by carriers in
the city, or by mail.

THE SUNDAY STAR, by mail, one year,
\$1; six months, 50 cents; three months, 25
cents.

ADVERTISING MATTER may be had on
application, and advertisers may feel as-
sured that through the columns of this
paper they will reach all Wilmington,
Eastern Carolina and contiguous territory in
South Carolina.

Obituary sketches, cards of thanks, com-
munications respecting the cause of a pri-
vate enterprise or a political candidate,
and like matter, will be charged at the
rate of 10 cents per line, or if paid cash in
advance, a half rate will be allowed. An-
nouncements of fairs, festivals, balls, hop-
picks, society meetings, political meet-
ings, etc., will be charged under same con-
ditions, except so much thereof as may
be of news value to readers of the paper.

Advertisements discontinued before ex-
piration of contracts are charged transient
rates for time actually published. Pay-
ment for transient advertisements must be
cash in advance. Contract advertisers will
not be allowed to exceed their space at
same rates, or advertise anything foreign
to their regular business, without extra
charge. Advertisements to occupy space
will be charged for according to place
position desired.

TELEPHONES: Business Office, No. 51.
Editorial and Local rooms, No. 61. Call
either, if the other doesn't answer.

COMMUNICATIONS, unless they con-
tain important news, or discuss briefly and
properly subjects of real interest, are not
wanted; and if acceptable in every other
way, they will invariably be rejected un-
less the real name of the author accom-
panies the same, not necessarily for pub-
lication, but as a guarantee of good faith.

Wednesday, April 17, 1912.

Do something even if it is watching
Wilmington go ahead.

If your candidate gets the worst of
it you can get even by having it in for
the umpire at the ball game.

Why didn't Roosevelt think about
letting the people rule some while he
was President during two terms?

Anybody else but the judicial Taft
would take it out on Mexico to get
even with those who swat him.

Don't ask a woman the price of her
new hat any more than you would pre-
sume to get inquisitive about her age.

It's no compliment for Taft to be
beaten by a third term in such Rep-
ublican States as Illinois and Penn-
sylvania.

A dispatch from Oxford, N. C., says
there is only one Taft man there and
"he is the postmaster." Wherefore,
we have one instance of pathetic fidel-
ity.

Roosevelt has hit in high places all
over the country but if he has ever
touched upon the really vital ques-
tion of taking the tariff yoke off our
necks we have failed to notice it.

A beauty specialist says a woman
can grow pretty on what she eats.
Wilmington women and those who
come here have every appearance of
having lived on a diet of rosebuds.

Laura Jean Libby says a man should
be careful about how he marries a
widow. Speaking about changing
one's opinion, Laura Jean will reverse
herself just as soon as she gets a
chance to become a widow.

Senator Penrose was conspicuous in
the effort to get Pennsylvania to sup-
port President Taft for Roosevelt.
Some of our friends ought to be tied
out in the woods while we are trying
to make a good impression.

The reason the detectives have not
succeeded in capturing Sidna Allen
is because Sid refuses to come in and
surrender like the others who didn't
care to make the detectives wear
themselves out when there was no use
of it.

Guests at a Teddy dinner at a ho-
tel in Springfield, Mass., were charged
\$5 a plate for a menu that could have
been served at a profit at \$2.25, cigars
and all. That also is just about the
difference in the value of tickets to a
spectacular performance which the
Colonel is giving while he is "slugging
'em over the ropes."

All that all-day-long noise of traf-
fic, bedlam of building operations and
resounding of street construction in
Wilmington is the thunder of progress
as it reverberates on the Cape
Fear. Winsome, worthwhile, Wil-
mington is realizing herself with a
vitality that is busy and impressive.
Get a ticket to Wilmington and see
something doing.

Ex-Congressman McKinley, direc-
tor of President Taft's campaign, de-
clares that the crushing defeat of the
President in Pennsylvania, is due to a
"nationwide campaign of wilful and
malicious misrepresentation, vilifica-
tion and assault on the President of
the United States." Mac is so satis-
fied that he knows who the guilty party
is that he names him and says:
"The fact that this candidate is now
claiming to wear the mantle of Abra-
ham Lincoln is evidence that the acme
of demagogism in this country has
been reached." No use to name the
gentleman who is throwing the mud
at the President. It is as easy to iden-
tify him as it was for the Irishman to
spot the "one-eyed gentleman" who
cheated him in a game of poker.

OVER CONFIDENT.

York World, warns the
at "any Democratic cannot
November because Roose-
velt is in April." How about
beating Teddy in November if he beats
Taft in June at Chicago? Conditions
are so complex at this time that it is
hard to either forecast or prophecy.
The World says New York is a debat-
able State in the Presidential election,
and in view of the result in the Re-
publican primaries in Illinois and
Pennsylvania that paper says:

"Illinois gave Taft 179,000 plurality
in 1908 in a total vote of 1,154,000.
Pennsylvania gave Taft 297,000 plu-
rality in 1908 in a total of 1,267,000.
Because 230,000 Republicans at the
Illinois primaries last week voted for
Roosevelt and against Taft, and be-
cause 37,000 Republicans voted for La-
Follette and against Taft, does not
mean that the same votes will be cast
against Mr. Taft if he is nominated at
Chicago and that the Democrats must
necessarily carry Illinois in November.
Because Pennsylvania at the Republi-
can primaries has gone overwhelmingly
against Taft does not mean that a
Democrat must necessarily carry
Pennsylvania against Taft. The re-
sults of the primaries in Illinois and
Pennsylvania may easily overstimulate
Democratic confidence because of Mr.
Taft's weakness with his own party
in two normally Republican States.
Any Democrat cannot beat Taft in
November because Roosevelt beat
him in April."

The World does not attribute so
much importance to the repudiation of
Taft in several Republican States, as
it does to the nomination of the right
man by the Democrats. More depends
on that so far as carrying New York
is concerned. New York will have 90
votes in the National Democratic con-
vention at Baltimore, and as the dele-
gates have been named and will go
uninstructed, the World seems to fear
that they may be controlled by Charles
F. Murphy in a way that may result
in a Presidential candidate that may
be Murphy's choice but who would not
appeal to the voters of New York.

Meanwhile, nobody knows who is the
most popular candidate in New York,
but the World is calling upon the vot-
ers to write and name their choice.
With uninstructed delegates from a
big State like New York, the will of
the party may be defeated in the con-
vention by a trade that a widely dele-
gation of 90 might make. In view of
that fact, the delegation would be bet-
ter off in the hands of a patriot than
it would be in the hands of a profes-
sional politician.

OYSTER COMPETITION

The Richmond Journal calls atten-
tion to the fact that Connecticut now
takes rank as the first oyster-produc-
ing State in the United States. Vir-
ginia formerly led the world in oyster
cultivation, the Journal says, and es-
tablished a reputation for oysters
known to every epicure in the world.
However, the Old Dominion has now
dropped to second place.

"What is needed? Is it a lack of
energy or money, or what?" asks
the Journal. An answer to those ques-
tions would be of great benefit to North
Carolina. It might also explain why
the oyster industry has gone to pieces
in North Carolina, which ought to be
the greatest oyster State in the coun-
try. North Carolina has a larger area
of oyster waters than any other State,
and something must be done to re-
store the industry.

Connecticut formerly depended on
Virginia for oysters to plant and yet a
recent dispatch states that Connecti-
cut a few days ago shipped fifty car-
loads of seed oysters from New Har-
ven to the Pacific coast. The dispatch
states that the oyster industry in Con-
necticut was the most successful this
season in the history of the industry.
The oystermen of that State have this
season shipped about 100,000 carloads
of shucked oysters worth millions of
dollars. Our esteemed Richmond con-
temporary marvels that Connecticut
used to be supplied with seed from
the James river, and yet with less
suitable oyster waters, that little
State is producing stock which prac-
tically is absorbing the Virginia oyster
demand.

Probably Virginia sooner or later
will be getting oysters from Connecti-
cut, just as North Carolina is getting
a large supply of her oysters from Vir-
ginia. Wilmington not only consumes
Norfolk oysters but during the past
week received fifty barrels of fish
from the Virginia city. What is the
matter with the North Carolina coast?
What is the matter with us? Hadn't
we better investigate the Connecticut
method of oyster culture?

The nearer a candidate comes to
getting the nomination the greater
grows the abuse that is heaped upon
him for trying to win on his merits.

A Pittsburgh man who landed in Wil-
mington a few days ago says the very
appearance of thrift in this commu-
nity indicates that some wonderful
force is at the bottom of the progress
which he observes on all sides.

Says the Chester (Pa.) Republican:
"Governor Marshall says he found he
could not practice law and preserve
his self-respect. He wanted to get
into a profession where his 'con-
science could be given breathing
room,' where he 'wouldn't have to
wink one eye at the truth.' So he
went into politics." Well, we guess
in politics the truth will wink the other
eye and wonder what the matter
with being a lawyer.

CURRENT COMMENT.

Cotton mill people ought to take
pride in the trades of carding, spin-
ning and weaving. These are among
the most respectable trades in the
world, and at the same time the old-
est. Wherever cotton spinning and
weaving is done, there is a regular
and even flow of wages which make
activities in commerce. Our home
operatives are not to be patronized
or pitied. They handle more money
in wages than perhaps most of the
other trades, and if they would form
the habit of saving their money, both
they and the savings banks would
prosper better than being done
by the cotton mills in the cotton mill
villages to improve education, but
enough stress has not been put upon
the subject of thrift and economy in
the way of savings. The field of tex-
tile work offers large advancements.
There is many a superintendent today
getting a good salary who started in
at very small wages. We don't, any
of us perhaps, properly appreciate the
value of the trades of the spinner,
weaver or carder; nor the possibilities
of advancement that these often lead
to—Greenville (S.C.) News.

The speech with which the late ex-
Governor Charles B. Aycock was to
have opened his Senatorial campaign
was a great one. It rang clear and
true, a trumpet call to the basic prin-
ciples of Democracy. It appealed to
the reason, to the heart, to the con-
science. Its mere reading is suffi-
cient to make a man a better Ameri-
can, and that the opportunity is to
be presented to all the world to read
it means for uplift. In the United
States House of Representatives, yes-
terday, Congressman E. W. Pou ob-
tained unanimous consent to have the
address of Governor Aycock printed in
the Congressional Record today,
and that consent was at once given.
It was a fine thought which prompted
Mr. Pou to ask that the address be
printed in the Congressional Record,
and, because of this, that great speech
will be widely disseminated, and it
will do good because of its teachings
which bear on life and uplift, outside
of the great truths of Democracy,
which it sets out. In making the re-
quest for unanimous consent Pou de-
clared: "In my lifetime I have known
no greater man." I rank him side by
side with the great Zebulon B. Vance."
—Raleigh News and Observer.

By the rout of the Taft forces in
Illinois and his sweeping victory in
Pennsylvania, Mr. Roosevelt last week
made rapid gains at the President's
expense. But barely half the dele-
gates to the Chicago convention have
so far been chosen, and in Illinois and
Pennsylvania Mr. Roosevelt, people
have worked hardest, spent their money
most freely and have been most con-
fident of success. Mr. Roosevelt
will not be nominated at Chicago for
a third term. The Republican party
will not deliberately seek to commit
political suicide in order to gratify
his personal ambition, as a candidate.
To deny Mr. Taft the nomination
that he seeks would be not only to re-
pudiate the Administration, but to
proclaim in the plainest terms that
the party while in power had been
false to its trust and was undeserving
of public confidence. But in smash-
ing the Lorimer machine in Illinois
and the Penrose machine in Penn-
sylvania, Mr. Roosevelt has rendered
a great service to these States and to
the country. The two United States
Senators, one from Chicago and one
from Philadelphia, stood for the worst
kind of politics. The best work Mr.
Roosevelt has done in years is the
breaking of the power of these two
bosses.—New York World.

People Should be on Their Guard.
A prominent minister called up The
Star office last night to say that he
had just noticed in his church paper a
column editorial on the expose of a
large number of persons claiming to
be Caledonian priests and in this
country soliciting money, claiming that
they wanted it for orphanages, schools,
etc., in the old country. Cardinal Far-
ley made an investigation and found
that these persons were frauds, said
the minister. The so-called Caledonian
priests left New York and came
South, he said, and he warns the peo-
ple of Wilmington to beware of any
members of the band. He said that
the money they secure from people in
this country is taken back with them
and used themselves and is not given
to any institution.

HIGH-O-ME

That's the Proper Way to Pro-
nounce HYOMEI, the Fa-
mous Catarrh Remedy
Made from Australian Eucaly-
ptus and Other Antiseptics—Just Breathe It.

It Banishes Catarrh

Getting rid of Catarrh is an easy
matter if you will only use a common
sense method.
Germs cause catarrh. You know
that, and you also know that in order
to end catarrh you must destroy the
germs. Sprays and douches will not
kill the germs. Liquid cannot pene-
trate into the folds and crevices of the
mucous membrane of the nose and
throat. Neither can it reach the lungs
or even the tubes that lead to the
lungs.

In every HYOMEI outfit, which is
sold by druggists everywhere, there is
a bottle of antiseptic liquid that will
kill catarrh germs.
Pour a few drops of this liquid into
the little hard rubber inhaler which
comes with the outfit and breathe this
now antiseptic vaporized air over the
membrane of the nose and throat in-
fested with catarrh germs.

It's pleasant, soothing and healing.
It is vaporized air, and it is really
the only remedy known that can reach
and destroy catarrh germs and end
the misery and humiliation that cat-
arrh causes. Complete outfit \$1.00.
Extra bottles of HYOMEI if needed
cost 50 cents. Druggists everywhere
sell HYOMEI. It is guaranteed not to
contain cocaine, opium or other habit-
forming drugs.—Robt. R. Bellamy
guarantees it.

CITY TAXES ARE LOWER.

Rate is Now Less Than It Was From
1878 to 1888.
Wilmington, April 15.

Editor Star:
You don't like knockers, except Op-
portunity when it knocks at one's
door. Neither do I; So, as many peo-
ple kick and knock about taxes, I
want to tell you that the rate of city
taxes was lower in this city for the
years of 1910 and 1911 than at any
time in a generation. My records only
go back to 1878. This is a memoran-
dum of city taxes since 1878:

1878 to 1888, inclusive	\$1.75
1889 to 1890, inclusive	2.00
1891 to 1894, inclusive	2.50
1895 and 1896	2.75
1897	1.50
1898	1.75
1899	1.50
1900	1.75
1901	1.50
1902	1.75
1903 to 1906, inclusive	1.50
1907	1.50
1908	1.50
1909	1.50
1910	1.40
1911	1.30
1912	1.30

Yours truly, W. M. CUMMING.

Healthy Mothers

Women who bear children and re-
main healthy are those who prepare
their systems in advance of baby's
coming. Unless the mother aids
nature in its pre-natal work the crisis
finds her system unequal to the de-
mands made upon it, and she is often
left with weakened health or chronic
ailments. No remedy is so truly a
help to nature as Mother's Friend,
and no expectant mother should fail
to use it. It relieves the pain and
discomfort caused by the strain on
the ligaments, makes pliant and elas-
tic those fibres and muscles which
nature is expanding, prevents num-
bness of limbs, and soothes the inflam-
mation of breast glands. The system
being thus prepared by Mother's
Friend dispels the fear that the crisis
may not be safely met. Mother's
Friend assures a speedy and complete
recovery for the mother, and she is
left a healthy woman to enjoy the
rearing of her child. Mother's
Friend is sold at
DRUG STORES.
Write for our free
book for expect-
ant mothers which contains much
valuable information, and many sug-
gestions of a helpful nature.

In Sickness and Health

You promised to provide for your Wife and Little Ones,
and this promise was not lightly spoken. Are you keep-
ing it? Suppose you should be stricken down with a
serious and long drawn out illness, have you provided
for those Dear Ones? Would it not be wise to lay aside
a certain portion of your earnings each month to meet
such an emergency?

Start a Sick Fund in this Bank. We will add to it
Four Per Cent., Compound Interest, and it will grow
rapidly.

SEVERAL ROAD SENTENCES

Young White Man Given Six Months
In Recorder's Court Yesterday
Morning—Appeal Taken—
Several Other Cases

Carl Nelms, a young white man, was found guilty in the Recorder's court yesterday morning of trespass and was sentenced to the county roads for a period of six months. Through his attorney, R. F. Brooks, Esq., he gave notice of an appeal to the Superior Court and bond was fixed at \$200. In addition to the case in which sentence was imposed the young man also faced another charge of trespass and one of carrying concealed weapons.

Nelms was charged with having entered the home of Mr. Thurman Clark on North Third street, his former boarding house, after having been forbidden to come on the premises. The defense attempted to have the case thrown out on the ground that the State had not established the fact that the defendant did not have a right in the house. The Recorder, however, held otherwise and imposed sentence of six months on the roads. The other cases were left open: C. D. Weeks, Esq., representing private parties, prosecuted the two trespass cases.

The case is a pathetic one, for Nelms is a manly young fellow, with a good face, marred at present by the marks of disipation. Whiskey and bad associations have been responsible for the young man's downfall. E. W. Coleman, white, was found guilty of assaulting Willie Parker with a pair of metal knucks and was fined \$10 and costs. Marion Green, colored, found guilty of an assault with a deadly weapon upon Marie Clark, also colored, by pointing a pistol at her, was sentenced to three months on the county roads.

Geo. Ellerby, colored, and Jno. Tharp, white, were found guilty of gambling and were assessed \$5 and costs each. The cases came up from Justice Harris' court. Sam Williams, colored, was taxed \$10 and costs for a nuisance, and Lou Bell Davis, who was characterized by one of the colored spectators as "de blackes' nigger what's ever been in cote," was relieved of \$10 and costs for being drunk and disorderly. Sue Robinson, colored, was found guilty of disorderly conduct, and a charge of Ed. Galloway, colored, with disorderly conduct, was not prossed. One drunk contributed \$5 and costs.

REAL ESTATE ACTIVITY

Many Deeds Were Filed For Record Yesterday

Though it is a recognized fact that the Wilmington real estate market is probably livelier at present than at any time in the history of this city, the number of deeds filed for record yesterday with the Register of Deeds seems to indicate a rapidly growing demand for local dirt. Among the papers filed were the following:

Mary Elizabeth Borden to W. C. Petty and others, for \$1,000 and other considerations, lot on southeast corner of Front and Walnut streets, 66x100 feet in size.

J. Marsden Davis and wife to H. Wayland Colwell, for \$100 and other considerations, lot in Winter Park Gardens, on Park avenue, 132 feet west of Third street, 66x330 feet in size; by another deed H. W. Colwell and wife transfer same property to W. M. Cumming and wife, for \$100 and other considerations.

Wilmington Suburban Company to J. Victor Grainger, for \$875, lot on Third, 99 feet north of Marsteller street, 99x150 feet in size.

Burke H. Bridges to J. Victor Grainger, for \$1 and other considerations, lot on Carolina Heights, on Chesnut street, 66 feet east of 17th street, 66x165 feet in size.

N. J. Crocker and wife to W. M. Cumming and wife, for \$1,000 and other considerations, lot on Carolina Place, on Perry avenue, 132 feet east of 18th street, 66x113 feet in size.

C. L. Meister and wife to Mary Elizabeth Borden, for \$1,000 and other considerations, lot on Third, 221 feet east of Grace street, 33x90 feet in size.

L. W. Moore and wife to W. M. Cumming and wife, for \$100 and other considerations, lot in Winter Park Gardens, on southeast corner of Park avenue and Second street.

C. Y. VeVau and wife to H. F. Wilder, for \$100 and other considerations, lot on Carolina Place, on Wicott avenue, 99 feet west of 20th street, 66x113 feet in size.

Robert C. James to Hettie S. James, for \$100, lot on southeast corner of Third and Grace streets, 51x86 feet in size.

Hettie S. James to R. Julia James, for \$10 and other considerations, lot on Third, 48 feet south of Grace street, 33x86 feet in size.

AUTO OWNERS ARRESTED.

Police Corraling Those Who Run Cars Without Numbers.

The police yesterday began a campaign against persons violating the city automobile ordinance by running their cars without license numbers. Among those arrested yesterday were Dr. E. J. Wood, Messrs. J. W. Blake, B. F. King, Jr., F. W. Foster, R. A. Wright, Leo Todd and Dr. E. S. Bulluck. Most of the arrests were made by Policemen D. W. Coleman and H. C. Bullard. All the defendants were recognized for their appearance in the Recorder's court this morning.

Chief Fowler stated yesterday afternoon that the law is most flagrantly violated in this respect and that it is the intention of the city officials to enforce it hereafter. It is absolutely necessary that all machines on the streets have license numbers, so that they may be traced in case of accidents, etc.

It Looks Like a Crime

To separate a boy from a box of Bucklen's Arnica Salve. His pimples, boils, scratches, knocks, sprains and bruises demand it and its quick relief for burns, scalds or cuts is his right. Keep it handy for boys, also girls. Heals everything healable and does it quick. Unequaled for piles. Only 25 cents at R. R. Bellamy.

Great Pathe Weekly.

All the big events in the world's history in high-class motion pictures at The Grand today.

REGULAR WEEKLY SESSION

Council Considers a Number of Routine Matters—Decide to Take Over All Sanitary Work, Sewerage Question.

Aside from the consideration of the plan for medical inspection in the public schools of the city, as related in another column of today's paper, Council yesterday afternoon had a number of matters of interest to engage its attention. Mayor Joseph D. Smith presided and all members were in attendance; also Capt. Thos. D. Meares, city clerk and treasurer; City Attorneys Herbert McClammy and Geo. L. Peschau, and Dr. Chas. T. Nesbitt, city superintendent of health.

The weekly report of the city chemist was to the effect that the water had not been up to the standard the past week on account of delay in getting necessary chemicals. He reported the presence of bacteria and high color of the water. The chemicals have been received, it was stated, and this condition is not expected to appear on the report for this week.

When Capt. J. W. Harper, owner and master of the steamer Wilmington, was required by Mayor Smith to remove the open pavilion he had placed at the foot of Princess street so as to protect over the wharf for 10 or 15 feet, it was said that a number of other persons, firms or corporations are using public wharves for private purposes to the exclusion of others. Mayor Smith had Chief of Police Fowler secure a list of all the buildings, etc., supposed to be on city wharves.

No action was taken on the resolution from the local Chamber of Commerce asking Council "that in the event the city takes over the Wilmington Sewerage Company, that provision be made to reimburse citizens who have paid the excessive 100 per cent. sewerage rates from the beginning of the present quarter." The resolution was offered at a recent meeting of the Chamber of Commerce by Mr. J. A. Taylor, who also declared that "the offer of \$50,000 for the plant an absurdity." Mayor Smith took exception to this declaration of Mr. Taylor and informed Council yesterday that he had written Mr. Taylor a letter with regard to the matter. Mayor Smith said that the remark of Mr. Taylor was not only unfair but unjust and that he did not think Mr. Taylor qualified to criticize the Council in this matter, as unlike members of Council he has not given any considerable amount of time and thought to the question.

Councilman Tiencken said that the Council was doing all it knew how to do in an effort to settle the sewerage question. He remarked that Council should not be criticized because it does not do everything to suit certain people, but that those who profess to know so much about the matter should give Council the benefit of their wisdom.

Councilman R. C. Moore said that it appeared to him that the citizens were looking for a justification for their results and that they are not concerning themselves about the many details that have to be considered by Council. Upon motion of Councilman Perdue, seconded by Councilman P. Q. Moore, the communication from the Chamber of Commerce was merely placed on file.

Council adopted a resolution, offered by Councilman Tiencken, urging that the United States Surgeon-General and Senator Simmons use their influence to have the government give a portion of the government reservation in the eastern part of the city for tuberculosis sanatorium. It was said that Mrs. Cuthbert Martin, president of the Wilmington branch of the National Red Cross Society, expects to go to Washington next week in the interest of the proposition and it was felt that a resolution of Council would help in her undertaking.

Councilman R. C. Moore suggested that the city should make an effort to secure that portion of the reservation that is to be sold at public auction, for a park, but he appeared to be the only member of Council interested in the matter.

Licenses were issued as follows, upon recommendation of Councilman B. C. Moore: R. T. Wells, soft drinks, 705 North Fourth street; Miss Ellen Sheehan, soft drinks and ice cream, 1102 Market street; George Mantis, restaurant, 101 South Front street; Sallie Jones, restaurant, 11 Dock street; L. Davis, soft drinks and restaurant, 1203 North Fourth street; Robt. Rnark, Esq., was before the Council as attorney for the Clarendon Construction Co., with reference to balance alleged to be due by the city of \$896.56 on contract. Mr. C. R. Humphreys, of the construction company, was also present. City Engineer Pillett had declined to approve the bill for certain "extras" and it is these items which are in dispute. The matter was discussed for some time, after which it was referred to Councilman P. Q. Moore and City Engineer Pillett for further conference with Mr. Rnark and his clients.

It was decided that Council will hold special meetings next week to arrange the tax ordinance for the next fiscal year, and some attention will soon be paid to the budget for next year.

Upon motion of Councilman B. C. Moore it was decided to change day of meeting from Tuesday to Wednesday, beginning the 1st of May. Mayor Smith and Councilman P. Q. Moore wanted the hour changed to 3 o'clock, while Councilmen Perdue and B. C. Moore insisted upon it remaining at 4 o'clock. Councilman Tiencken did not have any choice. The matter will come up again next meeting, by agreement.

Councilman B. C. Moore said that Recorder John J. Furlong and Dr. Chas. T. Harper had stated that they desired to get out of sanitary business if the equipment could not be sold to the city. He said that they had agreed to sell the eight mules and nine vehicles for \$990. Furlong & Co. would also be taken over by the city. It was the sense of the Council that the proposition be accepted, though consideration was postponed until a later meeting, when details will be worked out.

The question of advertising for bids for the construction of a municipal

system was brought up. Councilman Perdue was authorized some weeks ago to insert an advertisement, but he had delayed doing so at the request of Mayor Smith. After considering the matter it was decided to wait a few days yet, pending possible settlement of the sewerage question so far as concerns the existing plant.

Mayor Smith asked for and was granted permission to be out of the city Thursday, when he will attend the Odd Fellows' district convention at Warsaw. Owing to the fact that Mayor Pro Tem. M. G. Tiencken will be otherwise engaged on that day Council voted to make Councilman P. Q. Moore in charge of the Department Q. Moore, in charge of the Department Tem. for the day. The meeting then adjourned.

JURY OUT ALL NIGHT

No Verdict Yet in Penny Damage Suit—May Agree Today

Following the argument of ex-Judge E. K. Bryan, who made the concluding speech for the plaintiff, and the charge of Judge G. S. Ferguson, the jury in the case of R. P. Penny against the Atlantic Coast Line, retired about noon yesterday with the issues. Unable to agree the jury retired at 11 o'clock last night and will continue their deliberations this morning. The jury is in charge of Constable W. B. Savage, who was in charge of the Holly jury discharged on Monday after being on the case for 12 days. Mr. Penny is suing the railroad for \$20,000 alleged damages as the result of wound received when he was shot in getting off a passenger train at Leland, it being claimed that he was shot by a negro who was shooting at the conductor after the conductor had attempted to shoot the negro. The case has been tried several times.

Entries were made in the following cases yesterday: Murchison National Bank vs. J. B. Fountain, judgment non-suit; A. D. Rich vs. G. F. Hunt, judgment non-suit; P. T. Mill vs. Dr. W. H. Fuchs, referred to E. S. Martin, Esq.; P. W. Stock & Son vs. Murchison National Bank, continued; Murchison National Bank vs. Dunn Oil Mills Co., continued; Adam G. Latta vs. J. F. Woolvin, judgment non-suit; Julius Hahn vs. Southern National Bank, judgment non-suit; Thurber Gore Dickinson vs. C. E. Dickinson, judgment non-suit; S. L. Smith & Son vs. Rogers & Thomas, judgment non-suit; Chas. Wessell vs. Wilmington, Southport & Little River Co., continued.

Late in the afternoon the case of Sampson Cooper, colored, vs. H. A. Kure was taken up. The jury was selected in a short time and one witness examined before court adjourned for the day. The negro is suing for \$5,000 for alleged injuries received while loading a vessel for the defendant some four years ago. Ex-Judge E. K. Bryant and Herbert McClammy, Esq., appear for the plaintiff and John D. Bellamy & Son represent the defendant.

FUNERAL OF MR. R. H. GRANT

Services From St. James' Episcopal Church Yesterday Morning

Attended by a large concourse of sorrowing friends, including a delegation of Masons, of which order the deceased was a prominent and popular member, the funeral of Mr. Richard H. Grant, whose death occurred at his late residence, No. 210 Ann street, Monday morning, was held from St. James' Episcopal church yesterday morning at 11 o'clock. The Rev. Dr. William H. Milton, rector of St. James' church, of which Mr. Grant was a consistent member, conducted the services according to the beautiful and impressive rite of the Episcopal faith, following which the remains were tenderly borne to beautiful old Oakdale cemetery, where the interment was made with Masonic honors, representatives of Wilmington Lodge, No. 319, A. F. & A. M., having charge of the grave service. The pallbearers were: Honorary Dr. W. D. MacMillan and Mr. N. B. Rankin; active, Messrs. Geo. Boylan, R. C. DeRosset, A. S. Holden, C. W. Werts, H. Merritt and Jas. P. Seares. The active pallbearers were all members of the Masonic order.

BIG MUSICAL EVENT.

Sale of Seats for New York Symphony Orchestra Saturday Eve.

Emphasis is laid on the fact that the advanced sale of reserved seats for the New York Symphony Orchestra, which will appear here in concert Saturday night, will begin Thursday morning at 9 o'clock at the Academy of Music box office. No money will be taken at the box office all day Thursday, as this is the day for advance sale ticket holders to exchange their tickets for regular reserved seat theatre tickets. Only a limited number of these advance sale tickets has been sent out and those desiring more of them may be accommodated by applying to Miss Sarah Kenan, No. 202 South Third street.

As before stated, this great concert is brought to Wilmington under the auspices of the Ministering Circle of the King's Daughters for the benefit of the District Nurse fund and for this reason alone and for its real merit, the concert deserves a very large attendance.

Milady's Toilet Table.

A good complexion is within reach of every woman. All it requires is proper care. Throw away powders and cosmetics, live in the open air as much as possible and use a simple solution made by dissolving an original package of mayotone in a half pint of water. Apply this solution to face, neck and arms with this solution and you will be delighted with results. Its effect is instantaneous, antiseptic, and healthy. The skin is smooth, soft, satiny and girlish. To keep the hair bright, fluffy and youthful, use dry shampoo two or three times a month. Washing the hair makes it faded and brittle. Put a cupful of corn meal in a fruit jar and mix with it an original package of mayotone. Make enough to brush on the head and brush out. It brushes out easily, takes all dust, dandruff and itching scalp, leaving the hair clean, bright, wavy and rich in color. To stop headache, or ache in back of joints, reduce swelling, allay inflammation, to relieve pain in any part of the body, apply Mother's Salve, rubbing in well. It is used for neuralgia, rheumatism, lumbago, etc. The world never saw its equal as a pain killer. Superficial hair on face or forehead can be quickly and easily removed at home by applying delicate paste. Make enough paste to cover the hairy surface by mixing powdered talcote and water; apply, and wipe off after two minutes. Then wash the skin, and the hairs will be gone. This recipe is sure, speedy and sure.

FAVOR MEDICAL INSPECTION

Council Will Devise Plan By Which Request of Sorosis May Be Granted—School Children To Have Examination

While not taking any definite action, other than to refer the matter to the health department for further investigation and report at the next meeting, it seemed to be the sense of City Council in regular session yesterday afternoon that provision should be made for thorough medical inspection of children in the public schools of the city, as urged by the health committee of Sorosis and most heartily endorsed and commended by the New Hanover Medical Society.

There is little doubt but that the plan will be inaugurated with the beginning of the next school year in the Fall. Provision will most likely be made in the budget for the ensuing fiscal year for paying the little extra amount that will be needed for this work. The health department is endeavoring to work out a plan by which this work may be done by Dr. John Thames, assistant city superintendent of health, his salary to be increased proportionately with the increased duties. It is on this plan in particular that the health department is expected to report at the next regular meeting.

The matter was brought up yesterday afternoon by members of the health committee of Sorosis and by Dr. Edward Jenner Wood, member of the County Board of Health, and Dr. Ernest S. Bulluck, secretary of the New Hanover Medical Society, who strongly urged that medical inspection be inaugurated in all the schools of the city. The following statement of the matter was prepared and read by one of the ladies in attendance:

"Gentlemen:—The Health Committee of Sorosis appears before you this afternoon to present to you a plea for the welfare of the children of Wilmington. After years of thought and observation of the children of this city, of whom we get the best general view as we see them in the public schools, we feel that a considerable per cent of them are laboring under physical defects that prevent them from being at their best, either bodily or mentally; a condition from which they cannot free themselves, and of which, indeed, they are often unconscious."

"Our Health Committee has made a very thorough and exhaustive study of this situation during the past winter. We have personally talked with the members of Council, with school superintendent and committeemen, with individual physicians, and with others who want every one of the children to have the best possible equipment for his life work."

"The New Hanover County Medical Society has taken the matter under advisement, having given much time to its discussion in several of their monthly meetings, and the conclusions reached by the Health Committee, in which we think we are entitled to say the Medical Society concurs, are as follows:

"First, Compulsory medical inspection of schools is proving an important health factor all over the country, and, in view of recent statistics of diseases in Wilmington, is, to say the least, highly advisable. The large number of school children in Wilmington, about 4,000, precludes the practicality of having this inspection done by the voluntary work of physicians."

"Third, That Health Committee of Sorosis and the New Hanover County Medical Society agree that this work can, for many reasons, be best accomplished under the direction of the city health department."

"We, therefore, petition your honorable body to pass an ordinance requiring the thorough medical inspection of every pupil in the public schools of Wilmington, at least once a year, this to be under the jurisdiction of the city health department, and to incorporate in the budget for next year a sum large enough to employ a competent physician for as much of his time as is necessary for this purpose; and also to provide a way to cover such necessary expenses as eye-glasses, medicine, etc., for those children whose parents are not financially able to go to any expense in connection with the examination."

"Yours respectfully,
"Mrs. ANDREW HOWELL,
Chairman.

"MRS. J. M. SOLKY,
"MRS. B. T. HOPKINS,
"MRS. M. L. STOVER,
"MISS MARGARET L. GIBSON,
"MRS. R. B. SLOCUM."

The ladies stressed the point that they did not consider this county school work, but city health work.

Dr. Ernest S. Bulluck, secretary of the New Hanover Medical Society, read the resolutions adopted by the society some weeks ago endorsing the movement and recommending that it be done through the city health department and that an appropriation be made by Council for the purpose. Dr. Bulluck spoke briefly in support of the movement and suggested that the work might be done by Dr. John Thames, assistant superintendent of health.

Dr. E. J. Wood, a member of the County Board of Health and who has been very active in the interest of public health in the community, said that he was present purely because the matter under discussion was a public health question. Dr. Wood said that he was thoroughly in sympathy with the health campaign planned and being carried on by Dr. Chas. T. Nesbitt, city superintendent of health. In this health campaign Dr. Wood did not know of a better place to begin than with the school children. He said that when President Taft was here a few years ago he got a good view of the school children of the city who were assembled on Market, between Third and Fourth streets, and was prepared to say that a very large per cent were infected with hookworm disease. This fact, he said, was later borne out by a statement of Dr. Stiles, the hookworm expert. Many of these children have since been treated for the disease. Dr. Wood also called attention to the importance of examination and treatment of teeth and eyes. He was satisfied that the mental and physical efficiency of the children would be increased 50 per cent from

Princes Street between Front and Second.

the medical inspection as planned. Dr. Wood was asked by Mayor Smith if he did not think that the county ought to pay for the inspection as nearly all the fines which go into the school fund come from the city. Dr. Wood said he was not prepared to speak with regard to financing the project; all he knew was the importance of the work and all he could promise was results.

Dr. Nesbitt said that he and Dr. Thames had had the matter up for some time with a view of adopting the plan as suggested by Dr. Bulluck, but as yet they were not in position to make any recommendation to Council until a later meeting. He said that they would have the recommendation to present to Council before the budget for the next fiscal year is made up.

A letter to Council from Dr. W. S. Rankin, secretary of the State Board of Health, strongly urging a system of medical inspection in the schools, was then read. He said that medical inspection of school children has been carried out in various places for about ten years and pointed out that a recent work on medical inspection shows that between 25 and 30 per cent of the urban population of the United States requires medical inspection of school children. Medical inspection, he said, is now applied to a school population of about 5,000,000 children. The results of this inspection show that about 25 per cent of all school children have defective eyes; 12 per cent defective throat, either adenoids or enlarged tonsils; and about 6 per cent defective hearing. These defects, he pointed out, affecting the principal portals to the brain,

and four of the five through which the eternal world is to become subject to the child's understanding, play a profound part in influencing the child's nature. Dr. Rankin said that he felt that Wilmington has its share of defective children and urged that the plan for medical inspection be adopted.

Following the reading of the letter Councilman P. Q. Moore made a motion to the effect that the matter be referred to the health department for further investigation and report at next meeting. The motion prevailed.

Funeral of Mr. E. G. Willard.
The remains of Mr. Edwin G. Willard, brother of Mr. Thos. B. Willard, of this city, whose death occurred Monday morning at Chattanooga, Tenn., were brought to the city yesterday at noon and were borne to St. John's Episcopal Church, where they will remain until the funeral this morning at 11 o'clock. Rev. Wm. E. Cox, rector of St. John's, will conduct the services. The interment will be in Oakdale cemetery.

INTEREST IS GROWING.

Good Audiences Hear Rev. W. S. Jacoby at Immanuel Church.

Growing interest marks the series of meetings in progress at Immanuel Presbyterian church, and two large audiences, heard Rev. W. S. Jacoby yesterday afternoon and last night, when he delivered strong and thoughtful sermons.

The subject for the night sermon was "False Foundations of Men." and Mr. Jacoby wove a masterful discourse around the thoughts suggested by this caption. The service was also featured by special music by the choir. A number in the audience stood up for prayer and there were also several professions of faith.

Mr. Jacoby's talk at the service this afternoon will be along the line of personal work and at the night service he will preach on "The True Foundations of Men." The choir will furnish special music. All are cordially invited to be present.

FREE PICTURES.

We will present a moving picture show of the E. M. F. "30" factory making cars. The views take you through the plant from beginning to end and are instructive as well as entertaining. The show will be on at Academy of Music Friday night, the 19th, at 8 o'clock; at the Boys' Brigade Saturday night, the 20th. No admission will be charged and the public is invited to attend. The cost of producing these pictures was \$25,000, and the company is justly pleased with them. Come and see how a car is made.

SOCIAL & PERSONAL

A special meeting of Sorosis is called for Friday at 5 P. M. in the library at the Masonic Temple.

The Music Department of Sorosis will hold the last meeting of the year this afternoon at 4 o'clock at the Masonic Temple.

Mrs. John H. Anderson, of New York, is in the city on a visit to her sister, Mrs. Dr. W. D. MacMillan, No. 218 South Third street.

Monday's Charlotte Chronicle: "Mr. and Mrs. J. P. Lucas had as their guest yesterday Mrs. Lucas' brother, Mr. James Charles Craft, of Garden City, L. I."

Yesterday's Raleigh News and Observer: "Miss Alma Peschau, of Wilmington, who has been the guest of Miss Frances Parks, in West Raleigh, returned home yesterday."

The Charlotte Observer of yesterday: "Miss Maria Tucker arrived in the city last night from Wilmington to visit Dr. and Mrs. John Hill Tucker, on Elizabeth Heights."

Monday's Charlotte Chronicle says: "Miss Annie Wilson will entertain at her home on South Tryon street this evening at 9 o'clock, in honor of Miss Nancy Brown and Mr. Dolph M. Young, who will be married Wednesday evening. The guests will be Miss Nancy Brown and Misses Margaret Reese, Sadie Thomas, Lula Taliaferro, Sarah Brockenbrough, Sue Prince, of Wilmington; Marie Thomas, Sarah Wilson, Mrs. M. L. Cannon, of Concord; Mrs. Norvell R. Walker, of Baltimore; Mr. and Mrs. Gaston G. Galloway, and Messrs. Dolph M. Young, John A. Tate, Frank M. Caldwell, George D. White, Hamilton C. Jones, W. J. Brown, George E. Wilson, Jr., Phil L. McMahon, T. Robin Brem, W. S. O'Brien, Robinson, John M. Rose and Hannon Schofield."

APPROACHING NUPITAL EVENT OF MUCH GENERAL INTEREST

Baltimore, April 16. — Friends throughout Maryland, Virginia and North Carolina are very much interested in the approaching marriage of Miss Gertrude Anne Garrison, daughter of Mr. and Mrs. Lewis Allison Garrison, of Burgess Store, Va., and Dr. Roscoe McMillan, of Red Springs, N. C. The wedding will take place early in June at the country home of Mr. and Mrs. Garrison, "Havendale," Northumberland county, Virginia. The bride-to-be is one of the most popular young ladies in this section of the country, has visited in Baltimore a number of seasons and has a host of friends here.

Doctor McMillan is one of the most promising young physicians in North Carolina, graduated at the University of Maryland, afterwards serving two years as resident surgeon in University hospital, this city. He is now engaged in private practice at Red Springs, North Carolina. Their many friends wish them a long and happy life.

MRS. E. M. G. TOON GIVES BIRTHDAY RECEPTION

In honor of a number of invited friends who had given helpful recognition to her literary work, Mrs. E. May Glenn Toon, author of the song, "President's Greeting," entertained yesterday afternoon from 4 to 6 o'clock at a birthday reception at her residence, No. 516 Princess street. The charming affair was of a most delightful nature and the 25 or more guests reluctantly bade their hostess adieu, declaring her to be as accomplished in entertaining as she is in literary work.

Mrs. Toon was the recipient of a number of handsome presents from her friends. One feature of the event was a silver cup on display, which the hostess received when she was a child, and which is engraved with her name and the title of her poem. This cup will be sent to the President as a souvenir of the childhood of the author of the "President's Greeting." It is to be placed in one of the crystal cabinets of the White House.

"The President's Greeting," has not as yet been set to music, but this will be done in the near future by a well-known composer. It will be first used in Washington City, probably at some government function.

SOROSIS WILL OBSERVE TOMORROW AS RALLY DAY

Tomorrow will be observed as "Rally Day" by North Carolina Sorosis and the club feels proud to have as its guest on that occasion the honored president of the State Federation, Mrs. Robert Randolph Cotten, of Bruce, N. C. Delegates will also be present from the clubs at Maxton, Fayetteville, Chadbourn, Whiteville, Southport and Lumberton. The day will be given up to club affairs.

At the morning session, beginning at 11 o'clock, reports from the delegates will be heard and also reports from the departments of Sorosis. A recess will be taken from 1 to 3 P. M. The feature of the afternoon session will be the address of Mrs. Cotten, who will be introduced by Miss Margaret Gibson, ex-president of the North Carolina Federation, and who also will make an address. Other informal talks will follow, after which the Music Department will furnish an enjoyable programme, and this will be a fine opportunity for visitors to see what a fine department this is and the splendid work done in it. On such occasions it always gives pleasure and adds attractiveness to all entertainments given by Sorosis. Each member has the privilege of bringing a guest to this session.

After the business is over, the delegates will be taken in automobiles around the city and perhaps to the Wrightsville. Thursday night a reception will be held at the home of Mrs. R. W. Hicks. Each member is invited to bring a guest. While in the city Mrs. Cotten will be the recipient of much attention, a number of social affairs having been planned so that her many friends can have the pleasure of meeting her informally. While in the city she will be the guest of Mrs. J. B. Cranmer.

IMPORTANT MEETING OF CIVIC DEPARTMENT

At the regular meeting of the Civic Department of Sorosis yesterday afternoon plans were formulated for the awarding of the prizes for the kitchen

and prize. Prizes will be given to the contestant showing the finest exhibition of certain kinds of vegetables, including radishes, parsley, tomatoes, beans, peas and beets. The prizes will amount to \$15. A great deal of interest has been manifested in this work and the committee had the pleasure of visiting the garden plot of Master Julian Keith, on North Fourth street. In a space of about 15 feet square was a fine lot of radishes. A bunch of extra large and beautiful ones were dug, and presented to the committee and later taken to be exhibited at the meeting.

Master Keith has realized already \$7.50 from his garden and has fully \$10 worth in the plot still. This shows the results of enterprise and aside from the money that could be realized, other good results may come from this work. The love of planting is worth cultivating and the occupation furnished by garden work is desirable and is also conducive to health. All children desiring to enter the contest may do so within this week. The time has about arrived when the judges will begin to visit the gardens. The children will be asked to take their products as they become mature to the school which they attend and the teachers who are members of Sorosis will judge them there. The children are requested to let their teachers know when they wish the vegetables seen by the committee.

Committees were appointed to judge the roses, ledges, cottage gardens and all flowers coming under the list of prizes. This will be settled by June 1st. It is the intention of the department to continue this work next year and vary the prize offer taking in a greater variety of shrubbery, trees, etc. This department feels indebted to the Tidewater Power Co., for the generous sum of \$250 to the Sorosis to be used as prizes to encourage citizens to plant flowers, shrubbery, trees, and through such work to help beautify the town. It is well known that these prizes have been an incentive in beautifying yards, lawns and plazas and people generally are awakening to the fact that it is more desirable to live in pleasant and beautiful surroundings and that it is more necessary than ever to live in a town that is both beautiful and healthful. Where beauty supplants unsightliness and dirt, health is apt to creep in and stand side by side and gain a foothold with every added attraction.

PERSONAL PARAGRAPHS.

—Mr. A. Sellers, of Ivanhoe, was in the city yesterday.

—Mr. H. Barnes, of Proctorville, N. C., was a visitor to the city yesterday.

Among yesterday's guests at The Orton were R. H. McDowell, Columbia, S. C.; W. S. Dorr, Charlotte; O. J. Floyd, Fairmont; A. F. Madison, Goldsboro; J. E. Porter, Weldon; W. L. Hill, Wilson; N. A. Schulenberg, Charlotte; J. P. Walker, E. B. Hillgrass, Weldon; W. B. Darrow, Rocky Mount.

—Among the arrivals at The Southern yesterday were J. W. Dew and R. D. Bridgen, Currie; A. V. Vann, Clinton; Mr. and Mrs. D. J. Corbett, Currie; Mrs. W. C. Myers, Burgaw; E. L. McDonald, Hope Mills; A. E. Burton, Burgaw; J. L. Robbins, Greensboro; Mrs. J. L. Peterson and Miss C. D. McKoy, Burgaw.

MR. B. H. J. AHRENS' FUNERAL

Held Yesterday Afternoon From St Paul's Lutheran Church

Sad and impressive funeral services were held yesterday afternoon in honor of the memory of Mr. Benjamin H. J. Ahrens, whose death occurred Sunday morning; a large assembly of sorrowing friends gathered at the late residence, No. 619 Market street, at 3:30 o'clock, and following the cortege thence to St. Paul's Evangelical Lutheran church, of which Mr. Ahrens had been a devoted member for many years.

Rev. Dr. W. A. Snyder, pastor of St. Paul's, conducted the services, preaching a touching beautiful sermon that deeply moved the entire gathering. Upon the conclusion of the church services the remains were borne to Oakdale cemetery, where all that was mortal of one of Wilmington's most substantial and highly respected citizens was laid to rest. The grave was banked with many beautiful floral designs, attesting the universal esteem in which the deceased had been held by so many friends and the deep regret that his death has occasioned.

The pallbearers were: Honorary, Dr. J. C. Wesell, Dr. A. H. Harris, Messrs. C. N. Evans, M. J. Heyer, Wm. Neistile and J. Well; active, Messrs. A. D. Wessell, L. Hanson, C. P. B. Mahler, J. G. L. Gieschen, J. W. Duls and Jurgen Haar.

Death of Baby Girl

Mr. and Mrs. Geo. L. Hall will have the tenderest sympathy of their many friends in the loss of their infant daughter, Mary Evelyn, which occurred at the family residence at Carolina Place yesterday morning at 6 o'clock. The funeral will be held from the residence this afternoon at 4 o'clock. Rev. W. L. Rexford, pastor of Bladen Street Methodist church, will conduct the services. Interment will be made in Oakdale cemetery.

WORTH MORE THAN MONEY

Here is an instance where a few words of advice by a friend helped more than a gift of \$1,000 would. Mrs. H. Hartmann, who lives in Albany, N. Y., who was in bad health for years and is now strong and vigorous, says in a letter:

"I was in a run-down condition for about five years until this Spring, when I learned what a good tonic and strengthener Vinol is. It is certainly the best tonic I have ever used and it has done wonders for me."

It is very important for all who are not feeling just right, to build up their strength this Spring by taking our delicious cod liver and iron remedy without oil, Vinol.

There is no better time than right now, for Vinol both enriches and purifies the blood and creates new strength. People who have trouble-some coughs, no appetite, can't sleep, find Vinol exactly what they need to build them up. We guarantee Vinol to satisfy you and will pay back your money if it does not.—Robt. R. Bellamy, Druggist, Wilmington, N. C.

Dramatrical.

The Academy of Music has not closed its season for 1912 and will continue same next week, offering at that time one of the best known popular price attractions on the road—the Mason-Street Company.

The attraction is one well known in the larger cities of the South and is one that will give the greatest satisfaction and that comes highly praised by the press. It is appearing in Greenville, S. C. This week and has received most lavish notices from the papers of that city. No doubt, the engagement here will be a highly successful one. The company has a brand new repertoire of plays and the list includes some of the big modern successes. The engagement will be inaugurated Monday night, when a New York success will be offered. Clever specialties will be introduced between acts, thus really presenting a vaudeville performance along with the dramatic. Seats for Monday night will be on sale at Plummer's Saturday morning.

At the Grand Theatre. The Grand Theatre will offer today one of the best bills of the week and one that should attract very large crowds. The leader will be the "Pathe Weekly," of current events and this will be both entertaining and educational. In these busy days, it is well impossible for the busy man to keep track of all the big happenings in the world, but in these pictures he can drop in for half an hour and get the cream of the world's news in a very short time. In addition to this film the Grand will offer a double Lubin carrying "His Little Sister," a gripping story of the "Gulch," and "That Chicken Dinner," a great comedy that tells of a king of tramps and what becomes of him. The constable and the deputies are given a lively chase and all told, it will be found one of the most amusing pictures at the Grand in some time. The Pathe Weekly alone will be worth many times the price of admission and standing room only will be the order at the theatre today.

MARKET STREET PROPERTY.

Messrs. D. R. Foster & Co., Conclude an Important Deal.

Messrs. D. R. Foster & Co., real estate agents, yesterday concluded one of the largest deals of the season in Market street property, which is showing unusual activity just at present. The firm yesterday sold to Mr. Jos. T. King, car accountant of the Atlantic Coast Line, a large double lot on the north side of Market, between 15th and 16th streets, extending entirely through the block, the frontage on Market street being 132 feet. It is understood that it required in the neighborhood of \$13,500 to swing the deal, there being no building on the premises.

It is understood that Mr. King will likely sell part of the lot and will use the remainder on which to erect a handsome residence for himself. It will be recalled that only recently Mr. I. Shrier bought the northeast corner adjoining the lot of Mr. King and it is stated that he, too, will erect a handsome home on the property.

Messrs. Foster & Co., have closed several large realty deals recently, one of which was the sale of valuable property on the turnpike, near Winter Park, to Mr. Chas. C. Chadbourn, for developmental purposes.

HOLLY WILL BE TRIED HERE.

Judge Ferguson Overrules Motion to Remove to Another County.

Judge G. S. Ferguson, who is presiding at this term of Superior Court, yesterday afternoon overruled a motion of the State for the removal of the case against J. C. Holly, for the murder of his ward, Edward Cromwell, to another county for trial. The third trial will, therefore, be held here. The motion to remove to another county was made by Louis J. Polsson, Esq., who appears with the solicitor for the prosecution. The court also overruled a motion of C. D. Weeks and Wm. J. Bellamy, Esqs., Holly's attorneys, for the discharge of the prisoner on the ground that his life has already been placed in jeopardy once, that the mistrial ordered by the court in the case was not warranted, and in accordance with the practice and procedure of the court, and was not of necessity. The defendant filed an affidavit in which he asked that the trial be held in New Hanover county.

HANOVER SEASIDE CLUB

Annual Meeting of Members Last Night — Officers Elected

With a large and enthusiastic attendance the annual meeting of the members of Hanover Seaside Club was held last night at the club rooms of the Howard Relief Club. The meeting was presided over by Mr. Martin Schnibben, the president, and Mr. J. W. H. Fuchs, the secretary, was at his post. Officers were re-elected for the ensuing term as follows: President, Mr. Martin Schnibben, vice president, Mr. F. A. Bissinger; secretary and treasurer, Mr. J. W. H. Fuchs. The officers with the following composed the executive committee: Messrs. J. G. L. Gieschen, M. G. Tiencken, C. P. B. Mahler and H. T. Duls. It was decided to make a number of improvements at the club house on Wrightsville Beach before the opening of the season.

REV. J. C. WOOTEN PREACHED.

Delivered Sermon at Revival Meeting at Bladen Street Church.

Rev. J. C. Wooten conducted the service at the revival meeting at Bladen Street Methodist church last evening, preaching a most interesting sermon on the subject, "The Bondage of Sin." He was heard by a large congregation and much interest was manifested. A special choir furnished the music.

Today Rev. P. D. Woodall, of Jacksonville, N. C., will arrive and will have charge of the services for the remainder of the series. Mr. Woodall is a most forceful and eloquent preacher and it is expected that he will be heard by large congregations. Indications are that this will be one of the most successful series of meetings ever held at Bladen Street church.

THE UP-TO-DATE STORE

1 DOLLAR WEEK

All of the New Styles On Easy Credit Terms

We Are Ready to Clothe Every Man, Woman & Child for Spring and Summer

—Low, plain prices; guaranteed garments; and every advantage that a modern clothing store can possibly give you.

—If you want to pay cash, you are at liberty to do so; but why should you inconvenience yourself when there is nothing to be gained?

ENTIRELY BALD

Her Hair Commenced to Grow After Two Weeks' Use of Newbro's Herpicide.

"Fever caused me to be entirely bald. I had given up all hope of again having hair when I was advised to use Herpicide. After two weeks my hair commenced to grow. I now have the most beautiful head of hair anyone ever saw. Praise to Newbro's Herpicide."

Thus writes Mrs. Howard Bailey, of Bellevue, Mich. We can point to thousands of instances where the proper use of Herpicide has been followed by a remarkable growth of hair.

Newbro's Herpicide is the original remedy which kills the dandruff germ and stops falling hair.

One Dollar Size Bottles are sold and guaranteed by all druggists. Send 10c in postage for sample and booklet to The Herpicide Co., Dept. R, Detroit, Mich.

Applications may be obtained at the best barbers and hair dressers.

EXCITED ADVANCE IN COTTON

Last Prices Showed a Net Gain of 15 to 19 Points, Owing to Bad Weather in the South—Heavy Realizing.

New York, April 16.—There was another excited advance in the cotton market at the opening today, owing to bad weather in the South, and while part of the improvement was lost as a result of continued heavy realizing, the close was steady, and last prices show a net gain of from 15 to 19 points.

The market opened strong at an advance of from 15 to 25 points, with the new crop positions making new high records for the season on reports of further heavy rains to the belt, unfavorable flood news from the lower Mississippi Valley and the firmness of late cables from Liverpool. There was continued heavy profit-taking at the advance of this morning, and offerings proved heavy enough to check the advance around the opening figures. The Eastern belt forecast for continued showers to night and tomorrow no doubt prompted buying in addition to the rains reported during the last 24 hours, and early offerings were very well absorbed within 3 or 4 points for the best. The first weekly weather report of the season, issued at midday, however, read rather more favorable than expected, and following its publication offerings became a little heavier. Prices reacted further in consequence, but after showing a decline of about 6 to 12 points from the early high level, the market again steadied and fluctuations in the late trading were irregular, with the close 2 or 3 points up from the lowest on active positions. Receipts, 57,742 bales, against 20,068 last week and 9,950 last year. Today's receipts at Galveston, 9,429, against 4,460 last year; at New Orleans, 1,255, against 1,400 last year, and at Houston, 3,055, against 1,588 last year.

Spot closed steady, 15 points higher; middling uplands, 11.70; do. gulf, 11.95; sales, 200 bales.

Futures closed steady.

CHICAGO GRAIN.

Chicago, April 16.—Although it was pretty generally conceded today that the failure of the wheat crop in the South throughout Illinois, Indiana and Ohio had been the worst for more than a quarter of a century, the trading community reached a point where the conservative at least believed the price discounted the damage. In consequence, the market closed easy, % lower to 3/4% above the bid. Corn advanced at a net decline of 1 1/2¢ to 1 3/4¢, and oats of % to 3/4¢. In provisions, the outcome varied from 5c. loss to an advance of 15c.

Wheat—No. 2, red, 1.11@1.12; No. 2, hard, 1.11@1.12 1/2.

Corn—No. 3, yellow, 77 1/2¢; No. 3, yellow, 77 1/2¢.

Oats—No. 3, white, 57 1/2¢; No. 4, red, 56 1/2¢; standard, 57 1/2¢.

Puts End to Bad Habit.

Things never look bright to one with "the blues." Ten to one the trouble is a sluggish liver, filling the system with bilious poison, that Dr. King's New Life Pills would expel. Try them. Let the joy of better feelings end "the blues." Best for stomach, liver and kidneys. 25c. R. R. Bellamy.

OPENING PRICES IRREGULAR

The Sinking of the Titanic Had A Depressing Effect on the Stock Market—Sensational Considerations.

New York, April 16.—Trading on the stock exchange today seemed to be governed in large part by sensational considerations. The sinking of the steamship Titanic exercised a depressing influence, which bullish manipulation was powerless to shake off. The professional element espoused the short side in greater numbers and their attempts to depress prices undoubtedly were assisted by sales of long stock. Opening prices were very irregular, with a percentage of gains over losses, despite London's heavy tone. A feature of the initial dealings was the break of 1 to 3 points in the several securities of the International Mercantile Marine Company, which owned the ill-fated Titanic. These issues subsequently went lower. There also were early declines of two points in American Can, common, and 1 1/2 in Canadian Pacific, the former soon recovering and attaining its best price of the previous day, which constituted its high record. The Copper issues were very prominent for their strength, especially Anaconda, whose directors are expected to meet on Thursday and declare a dividend at the rate of four per cent, or double the present distribution.

Prices suggested a tendency toward betterment before noon, but in the early afternoon another selling movement obliterated virtually all gains and brought the general level well under yesterday's close. Fluctuations were narrow in the last hour, at which time the decline was partly arrested, although some of the specialties manifested acute weakness. American Tobacco yielding over five points and Lorillard almost 100 points. The closing was barely steady, although recoveries ran almost to a point in the speculative favorites.

Some local banks called loans to fortify their reserve, but monetary conditions otherwise were unchanged. Bonds were irregular with a better tone than the stock market, par value, \$1,735,000. Total sales of stocks were \$770,900 shares.

DRY GOODS MARKET.

New York, April 16.—The cotton goods markets in the dry goods division remain very firm and active on spot and cloth markets, men's wear for duplicate fall delivery being advanced. Raw silk is firmer, yarns and knit goods are in better demand.

IN CHOOSING A REFRIGERATOR

Remember that a constant, active circulation of pure, dry, cold air through all parts of the provisions chamber is most essential. It not only means smaller ice bills, but the very health of your family. In the

ONLY EIGHT HUNDRED RESCUED FROM

(Continued from Page One.)
puted one of the wealthiest men in the world. So far as is known his wife did not accompany him.

"The company gave me one encouraging statement," said the Senator, "that the Titanic carried all the life boats required under the laws of the United States and Great Britain. Of course the number already reported rescued includes a number of seamen necessary to man the boats. It is possible that the life boats got away from the scene and that they may be picked up by other vessels not yet heard from."

Revenue Cutters to Act as Escort
Washington, April 16.—President Taft has tentatively decided to dispatch two revenue cutters from New York to Sandy Hook to meet the Carpathia and act as an escort into the harbor.

The question will be definitely determined at a conference tomorrow between the President and Secretary MacVeagh, of the Treasury Department. If convoys are sent out, they will be the cutters Seneca and Mohawk now in New York. In order that a waiting word might receive the earliest possible information regarding the tragedy, Secretary MacVeagh indicated his willingness to consider the question of sending the revenue cutter Greham, with newspaper correspondents aboard, from Boston to meet the Carpathia, provided the Cunard Line was willing to allow them aboard. This question was held in abeyance, however, by advice from Deputy Collector of Customs Stewart, at New York, stating that the steamship line would not grant the privilege.

New York, April 16.—Only a hope remains tonight that any of the 1,362 passengers and crew who have been missing since the giant Titanic sank have been picked up by transatlantic liners. The 868 survivors rescued from life boats by the Cunard Carpathia, now on her way to this city, are the only known survivors.

The brief and meager wireless messages that came to hand today practically extinguished hope that some of the ill fated passengers may have been picked up at sea by the steamships Virginian and Parisian of the Allen Line. Both of these steamers sent word that they had none of the survivors on board. Of the 868 persons rescued by the Carpathia, the names of 326 passengers had been received by wireless up to 4:30 o'clock. The Carpathia evidently was out of wireless range toward noon, for after that efforts to reach her with wireless communications were futile, and a score or more of messages from the Cunard Company and other sources were unanswered.

At 5 o'clock this afternoon Vice President Franklin, of the White Star Line, said that so far as he knew the Olympic was still standing by the Carpathia to relay wireless messages. He added that he had received no word from the Olympic since 9 o'clock this morning and had been unable to get either the Carpathia or the Olympic by wireless.

Mr. Franklin said also that the steamship companies crossing the Atlantic had entered into an agreement to abandon the short Northern route in favor of the Southern route as long as icebergs were reported in the pathway of the former course.

The dispatch from Montreal saying that hope was still entertained there that the Parisian might have aboard some of the Titanic's survivors, Mr. Franklin characterized as a "ridiculous report." He added that "in my opinion neither the Parisian nor the Virginian has any survivors aboard."

The Titanic was insured for \$5,000,000, Mr. Franklin said. On the ship, he added, the White Star Line would lose about \$3,000,000. This will be the smallest part of our loss," he added.

Capt. Rostron, of the Carpathia, in his last wireless report to the Cunard Company, stated that his vessel was proceeding slowly through a field of ice to the spot.

President Taft late this afternoon directed the Secretary of the Navy to order the scout cruisers Salem and Chester to the scene at once from Hampton Roads to meet the Carpathia and send in by wireless to the government a complete list of the Titanic's survivors. The Chester was caught by wireless about 40 miles off the Chesapeake capes and by 4 o'clock was steaming northward at 20 knots an hour, aiming to get as quickly as possible into touch with steamers having news bearing on the disaster.

Two revenue cutters also were notified to stand in readiness to proceed to the Carpathia if necessary. In the event that the Salem met no sufficient coal, instructions were given to dispatch the cruiser North Carolina instead.

A possible chance of obtaining news bearing upon the disaster developed early this afternoon when the Leyland liner California came into the zone of wireless communication with Sable Island. The Californian was reported at the disaster shortly after the Titanic went down and it was thought probable that she would have valuable information to communicate.

Capt. Rostron, of the Carpathia, has been instructed to send full details of the sinking of the Titanic.

All day long tearful and anxious throngs swarmed the offices of the White Star Line and overflowed into Broadway, stopping traffic at times and keeping police reserves busy maintaining order.

Col. John Jacob Astor is believed to be among those drowned. His wife

Company, are still unaccounted for. News Causes Man to Drop Dead
Boissevain, Man., April 16.—J. P. Alexander, a former member of the Provincial parliament, dropped dead today when told of the Titanic disaster. He was troubled with heart disease.

Only Survivors On Carpathia
Cape Race, April 16.—A wireless message from Captain Haddock, of the steamship Olympic, relayed by the Celtic, reads as follows:

"Please allow rumor that the Virginian has any of the Titanic's passengers. Neither has the Tunisian. I believe that the only survivors are on the Carpathia. The second, third, fourth and fifth officers and the second Marconi operator are the only officers reported saved."

Scenes at White Star Office
New York, April 16.—"We are waiting for a complete list of the names of the survivors and until this is received we can give no definite information."

This was the only answer that could be given today at the White Star Line offices here to the thousands of anxious persons who gathered there seeking information regarding relatives and friends, who were among the victims of the Titanic disaster. From early morning until late tonight pathetic scenes were witnessed in lower Broadway and in Bowling Green Park, opposite the steamship offices. Hundreds of anxious inquiries were received also by long distance telephones.

Multitudes remained in the vicinity of Bowling Green throughout the day hoping against hope that their loved ones were included among the survivors on board the Carpathia, which is now speeding to New York with the passengers who were rescued from the life boats after the Titanic sank.

Clerks in the White Star offices were kept busy informing those seeking news that no information had been received from either the Carpathia or the Olympic. The incomplete list of survivors was posted at the entrance of the White Star offices. Those who failed to find the names of their kin or friends in this list could only hope that when the complete roster of the rescued was received it would bring welcome news.

When word reached the scores of men and women crowded into the narrow corners of the offices that Vice President Franklin, of the International Marine Company had announced that he was confident that the Virginian and the Parisian of the Allen Line, had none of the Titanic's passengers on board, an atmosphere of deep depression prevailed. Newspaper men were besieged by the anxious inquirers who could not believe that the White Star officials were giving out all news of the disaster.

There was a constant procession of automobiles and taxicabs and women from Fifth avenue and the Bowery mingled together in the foyer of the building while they scanned the bulletins giving the latest news of the sea tragedy. Many pleaded with the clerks not to withhold information from them.

"If you have definite news that my brother has lost his life," said one woman, "do believe in this terrible suspense by telling me the truth."

Scores of boys were calling out extra newspapers announcing that more than two-thirds of the Titanic's passengers had lost their lives, and so anxious were waiting crowds for every bit of news bearing on the disaster that they bought the newspapers and scanned the list hoping that the one in whom they were interested might be found among those who had been rescued. After having waited in Bowling Green Park for more than 15 hours, Mrs. W. A. Wheelock, of this city, was summoned when the first list of names of the survivors came by wireless. She was told that her niece, Mrs. D. W. Marvin, who, with her husband, had been saved but that no word had been received as to the fate of Mr. Marvin. Later in the day Mr. Marvin's mother and father called in quest of some news of their son.

Telegrams of inquiry were received from President Taft and from scores of other public officials in Washington and other cities. Many cable messages came from London and Paris.

In uptown New York wherever means of information were available the clamor for the news was no less insistent. The streets in front of bulletin boards were thronged with crowds eager to get the latest news and watching intently for the appearance of names of relatives or friends for whose fate they feared.

Similar conditions prevailed in the lobbies of the more prominent hotels, where lists of passengers reported saved from the Titanic were posted.

Memorial services for those who have lost their lives in the sinking of the Titanic will be held next Sunday morning in the Cathedral of St. John, the Divine. Bishop Greer will make an address and there will be special music.

Vice President Franklin was criticized today for his definite reassuring declarations of yesterday, which tended as alleged, to mislead the public.

Mr. Franklin this afternoon gave to the public the full text of the wireless message received from Captain Haddock, of the Olympic, yesterday afternoon.

"The reason I did not give it out last night," Mr. Franklin said, "was because it was discouraging; that I felt that it would not be right to alarm the public unnecessarily. Now that the worst is known I am willing to give it out. Here it is:

"Carpathia reached Titanic's position at daybreak. Found boats and wreckage only. Titanic had fundered about 2:20 A. M., in 41° 16' N. 50° 14' W. All boats accounted for. About 675 souls saved, crew and passengers. Leyland liner S. S. California remaining and searching for exact position of disaster. Carpathia returning to New York with survivors. Please inform Cunard, Haddock."

Boulogne, Sur-Mer, France, April 16.—Miss Harriet Quimby, the American air woman, crossed the English channel from Dover this morning, landing at Harleot, in the vicinity of this port. Miss Quimby is the first woman to accomplish the feat of flying across the channel alone. Her flight occupied two hours.

NATIONAL and "American" Collars are seen at the great outdoor game wherever you turn.

They are big favorites with the business men because they give both style and comfort.

"National" and "American" have the "Slip-Over" Button-hole, the "Easy-Tie-Slide" space and ample room for the scarf to show.

SHOOT ON AT GOLDSBORO.

Lieutenant Cantwell Returned to City Last Night.

Lieut. Paul L. Cantwell, of the W. L. L. returned last night from Goldsboro, where the rifle teams from the Second Infantry and the Newbern and Wilmington companies of the Coast Artillery Corps are engaged in the annual rifle match. Mr. Cantwell reported that the preliminary matches had all been completed yesterday and that some of the record shots had been begun.

He was the only member of the Wilmington team to shoot yesterday, scoring 45 out of a possible 50 at 500 yards, which is considered an excellent score. Lieut. Cantwell stated that the team from Lumber Bridge led all others in the preliminary contests and would probably carry off first honors if the members continue their good shooting in the record matches. The W. L. L. team, which is now in charge of Corporal Orrell, will complete its shooting today and the members will return to the city tonight.

Fort Worth, Tex., April 16.—J. W. Spencer, formerly president of a bank here, and a deacon in the First Baptist church, was the first witness in the J. Frank Norris perjury case today. He testified to a conversation with the foreman of the grand jury which indicted the pastor. The foreman, Clarence Ousley, of Fort Worth, according to the banker, told him that there was not a scintilla of evidence connecting Norris with the fire and assault, but that there were "suspicious circumstances" about the letter writing. This was prior to the indictment.

Kansas City, April 18.—Representatives of the 200,000 members of the five railway shop crafts west of the Mississippi river resumed their conference today with the expectation that final steps towards the federation of the crafts would be taken before the meeting adjourned. The first discussion was on admitting the painters, steam fitters and other allied trades.

Washington, April 16.—On Wednesday there will be an eclipse of the sun, visible only in the eastern part of the United States. The New England States, except a part of Connecticut and a portion of New York, will be the only part of the United States in which the eclipse will be visible; that is to say, in which the beginning, middle and end will all take place after sunrise.

IT SAVES YOU MONEY

Dr. Howard's Dyspepsia Specific; Regular Price 50c.—J. Hicks Bunting Co's. Price 25c.

The special half price sale of Dr. Howard's specific for the cure of constipation and dyspepsia by J. Hicks Bunting Drug Co., means the saving of a few dollars on every family's yearly bill for medicines.

Each 50 cent bottle (J. Hicks Bunting Drug Co., sells for 25c.) contains sixty doses of a medicine that is pleasant to take and which can be depended upon to cure the worst case of constipation, dyspepsia or liver trouble.

This remedy is not an ordinary medicine. It is the favorite formula of a well-known physician, and has the endorsement of hundreds of physicians of eminence in their profession, who prescribe it in all cases of constipation, dyspepsia or liver trouble, knowing from experience that it will make a complete and lasting cure.

The Danger After Grip

lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of Grip. If suffering, try them. Only 50 cents. Sold and perfect satisfaction guaranteed by R. B. Bellamy.

Security of Funds.
Liberality of Treatment.
Conservatism of Management.

Are three cardinal points that are worthy of careful consideration.

Common Sense is of All Kinds the Most Uncommon

It implies good judgment, sound discretion and true and practical wisdom applied to common life.—Tryon-Edwards.

COMMON SENSE
calls for an accurate keeping of one's financial accounts—and this with the least expenditure of time and effort. A check book is at once a purse, an account book and a book of receipts.

PERMIT US TO OPEN FOR YOU A CHECKING ACCOUNT.
